

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

(Mark One)

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2019

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number: 814-00866

MONROE CAPITAL CORPORATION

(Exact Name of Registrant as Specified in its Charter)

Maryland
(State or Other Jurisdiction of
Incorporation or Organization)

311 South Wacker Drive, Suite 6400
Chicago, Illinois
(Address of Principal Executive Office)

27-4895840
(I.R.S. Employer
Identification No.)

60606
(Zip Code)

(312) 258-8300

(Registrant's Telephone Number, Including Area Code)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer	<input type="checkbox"/>	Accelerated filer	<input checked="" type="checkbox"/>
Non-accelerated filer	<input type="checkbox"/>	Smaller reporting company	<input type="checkbox"/>
Emerging growth company	<input type="checkbox"/>		

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Trading Symbol(s)	Name of Each Exchange on Which Registered
Common Stock, par value \$0.001 per share	MRCC	The Nasdaq Global Select Market
5.75% Notes due 2023	MRCCCL	The Nasdaq Global Select Market

As of May 6, 2019, the registrant had 20,444,564 shares of common stock, \$0.001 par value, outstanding.

					\$ (49)

- (a) All of our investments are issued by eligible portfolio companies, as defined in the Investment Company Act of 1940 (the “1940 Act”), unless otherwise noted. All of our investments are issued by U.S. portfolio companies unless otherwise noted.
- (b) The majority of the investments bear interest at a rate that may be determined by reference to the London Interbank Offered Rate (“LIBOR” or “L”) or Prime Rate (“Prime” or “P”) which reset daily, monthly, quarterly, or semiannually. For each such investment, the Company has provided the spread over LIBOR or Prime and the current contractual interest rate in effect at March 31, 2019. Certain investments are subject to a LIBOR or Prime interest rate floor, or rate cap.
- (c) Except as otherwise noted, all of the Company’s portfolio company investments, which as of March 31, 2019 represented 230.4% of the Company’s net assets or 95.0% of the Company’s total assets, are subject to legal restrictions on sales.
- (d) Because there is no readily available market value for these investments, the fair value of these investments is determined in good faith using significant unobservable inputs by our board of directors as required by the Investment Company Act of 1940. (See Note 4 in the accompanying notes to the consolidated financial statements.)
- (e) Percentages are based on net assets of \$259,052 as of March 31, 2019.
- (f) All or a portion of this commitment was unfunded at March 31, 2019. As such, interest is earned only on the funded portion of this commitment.
- (g) This delayed draw loan requires that certain financial covenants be met by the portfolio company prior to any fundings.
- (h) This investment is treated as a non-qualifying investment under Section 55(a) of the 1940 Act. Under the 1940 Act, the Company may not acquire any non-qualifying asset unless, at the time the acquisition is made, qualifying assets represent at least 70% of the Company’s total assets. As of March 31, 2019, non-qualifying assets totaled 16.10% of the Company’s total assets.
- (i) The PIK portion of the interest rate for HFZ Capital Group, LLC is structured as a fee paid upon the termination of the commitment. The fee currently accrues at 0.17% per annum.
- (j) This investment represents a note convertible to preferred shares of the borrower.
- (k) All of this loan is held in the Company’s wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company’s revolving credit facility.
- (l) This is an international company.
- (m) This is a demand note with no stated maturity.
- (n) This position was on non-accrual status as of March 31, 2019, meaning that the Company has ceased accruing interest income on the position. See Note 2 in the accompanying notes to the consolidated financial statements for additional information on the Company’s accounting policies.
- (o) This loan is denominated in Great Britain pounds and is translated into U.S. dollars as of the valuation date.
- (p) A portion of the PIK interest rate for TRG, LLC is structured as a fee paid upon the termination of the commitment. The fee currently accrues at 3.44% per annum.
- (q) The Company structures its unitranche secured loans as senior secured loans. The Company obtains security interests in the assets of these portfolio companies that serve as collateral in support of the repayment of these loans. This collateral may take the form of first-priority liens on the assets of a portfolio company. Generally, the Company syndicates a “first out” portion of the loan to an investor and retains a “last out” portion of the loan, in which case the “first out” portion of the loan will generally receive priority with respect to payments of principal, interest and any other amounts due thereunder. Unitranche structures combine characteristics of traditional first lien senior secured as well as second lien and subordinated loans and the Company’s unitranche secured loans will expose the Company to the risks associated with second lien and subordinated loans and may limit the Company’s recourse or ability to recover collateral upon a portfolio company’s bankruptcy. Unitranche secured loans typically provide for moderate loan amortization in the initial years of the facility, with the majority of the amortization deferred until loan maturity. Unitranche secured loans generally allow the borrower to make a large lump sum payment of principal at the end of the loan term, and there is a risk of loss if the borrower is unable to pay the lump sum or refinance the amount owed at maturity. In many cases the Company, together with its affiliates, are the sole or majority lender of these unitranche secured loans, which can afford the Company additional influence with a borrower in terms of monitoring and, if necessary, remediation in the event of underperformance.
- (r) A portion of this loan (principal of \$9,258) is held in the Company’s wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company’s revolving credit facility.

MONROE CAPITAL CORPORATION
CONSOLIDATED SCHEDULE OF INVESTMENTS – (continued)
(unaudited)
March 31, 2019
(in thousands, except for shares and units)

- (s) A portion of this loan (principal of \$525) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company's revolving credit facility.
 - (t) Represents less than 5% ownership of the portfolio company's voting securities.
 - (u) Ownership of certain equity investments may occur through a holding company or partnership.
 - (v) Represents a non-income producing security.
 - (w) As defined in the 1940 Act, the Company is deemed to be an "Affiliated Person" of the portfolio company as it owns five percent or more of the portfolio company's voting securities. See Note 5 in the accompanying notes to the consolidated financial statements for additional information on transactions in which the issuer was an Affiliated Person (but not a portfolio company that the Company is deemed to control).
 - (x) A portion of this loan (principal of \$5,061) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company's revolving credit facility.
 - (y) The PIK portion of the interest rate for Incipio Technologies, Inc. is structured as a fee paid upon the termination of the commitment. The fee currently accrues at 0.56% per annum.
 - (z) A portion of this loan (principal of \$46) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company's revolving credit facility.
 - (aa) A portion of this loan (principal of \$1,015) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company's revolving credit facility.
 - (ab) A portion of this loan (principal of \$1,938) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company's revolving credit facility.
 - (ac) As defined in the 1940 Act, the Company is deemed to be both an "Affiliated Person" of and to "Control" this portfolio company as it owns more than 25% in company's voting securities. See Note 5 in the accompanying notes to the consolidated financial statements for additional information on transactions in which the issuer was both an Affiliated Person and a portfolio company that the Company is deemed to Control.
- n/a - not applicable

MONROE CAPITAL CORPORATION

CONSOLIDATED SCHEDULE OF INVESTMENTS – (continued)

December 31, 2018

(in thousands, except for shares and units)

- (a) All of our investments are issued by eligible portfolio companies, as defined in the Investment Company Act of 1940 (the “1940 Act”), unless otherwise noted. All of our investments are issued by U.S. portfolio companies unless otherwise noted.
- (b) The majority of the investments bear interest at a rate that may be determined by reference to the London Interbank Offered Rate (“LIBOR” or “L”) or Prime Rate (“Prime” or “P”) which reset daily, monthly, quarterly, or semiannually. For each such investment, the Company has provided the spread over LIBOR or Prime and the current contractual interest rate in effect at December 31, 2018. Certain investments are subject to a LIBOR or Prime interest rate floor, or rate cap.
- (c) Because there is no readily available market value for these investments, the fair value of these investments is determined in good faith using significant unobservable inputs by our board of directors as required by the Investment Company Act of 1940. (See Note 4 in the accompanying notes to the consolidated financial statements.)
- (d) Percentages are based on net assets of \$258,767 as of December 31, 2018.
- (e) All or a portion of this commitment was unfunded at December 31, 2018. As such, interest is earned only on the funded portion of this commitment.
- (f) This delayed draw loan requires that certain financial covenants be met by the portfolio company prior to any fundings.
- (g) This investment is treated as a non-qualifying investment under Section 55(a) of the 1940 Act. Under the 1940 Act, the Company may not acquire any non-qualifying asset unless, at the time the acquisition is made, qualifying assets represent at least 70% of the Company’s total assets. As of December 31, 2018, non-qualifying assets totaled 16.36% of the Company’s total assets.
- (h) The PIK portion of the interest rate for HFZ Capital Group, LLC is structured as a fee paid upon the termination of the commitment. The fee currently accrues at 0.17% per annum.
- (i) This investment represents a note convertible to preferred shares of the borrower.
- (j) A portion of this loan (principal of \$2,010) is held in the Company’s wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company’s revolving credit facility.
- (k) A portion of the PIK interest rate for Comerstone Detention Products, Inc. is structured as a fee paid upon the termination of the commitment. The fee currently accrues at 2.33% per annum.
- (l) All of this loan is held in the Company’s wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company’s revolving credit facility.
- (m) The PIK portion of the interest rate for Landpoint, LLC is structured as a fee paid upon the termination of the commitment. The fee currently accrues at 2.25% per annum.
- (n) This is an international company.
- (o) This is a demand note with no stated maturity.
- (p) This position was on non-accrual status as of December 31, 2018, meaning that the Company has ceased accruing interest income on the position. See Note 2 in the accompanying notes to the consolidated financial statements for additional information on the Company’s accounting policies.
- (q) This loan is denominated in Great Britain pounds and is translated into U.S. dollars as of the valuation date.
- (r) A portion of the PIK interest rate for TRG, LLC is structured as a fee paid upon the termination of the commitment. The fee currently accrues at 3.29% per annum.
- (s) The Company structures its unitranche secured loans as senior secured loans. The Company obtains security interests in the assets of these portfolio companies that serve as collateral in support of the repayment of these loans. This collateral may take the form of first-priority liens on the assets of a portfolio company. Generally, the Company syndicates a “first out” portion of the loan to an investor and retains a “last out” portion of the loan, in which case the “first out” portion of the loan will generally receive priority with respect to payments of principal, interest and any other amounts due thereunder. Unitranche structures combine characteristics of traditional first lien senior secured as well as second lien and subordinated loans and the Company’s unitranche secured loans will expose the Company to the risks associated with second lien and subordinated loans and may limit the Company’s recourse or ability to recover collateral upon a portfolio company’s bankruptcy. Unitranche secured loans typically provide for moderate loan amortization in the initial years of the facility, with the majority of the amortization deferred until loan maturity. Unitranche secured loans generally allow the borrower to make a large lump sum payment of principal at the end of the loan term, and there is a risk of loss if the borrower is unable to pay the lump sum or refinance the amount owed at maturity. In many cases the Company, together with its affiliates, are the sole or majority lender of these unitranche secured loans, which can afford the Company additional influence with a borrower in terms of monitoring and, if necessary, remediation in the event of underperformance.
- (t) A portion of this loan (principal of \$9,258) is held in the Company’s wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company’s revolving credit facility.
- (u) A portion of this loan (principal of \$525) is held in the Company’s wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company’s revolving credit facility.

MONROE CAPITAL CORPORATION
CONSOLIDATED SCHEDULE OF INVESTMENTS – (continued)
December 31, 2018
(in thousands, except for shares and units)

- (v) Represents less than 5% ownership of the portfolio company's voting securities.
 - (w) Ownership of certain equity investments may occur through a holding company or partnership.
 - (x) Represents a non-income producing security.
 - (y) As defined in the 1940 Act, the Company is deemed to be an "Affiliated Person" of the portfolio company as it owns five percent or more of the portfolio company's voting securities. See Note 5 in the accompanying notes to the consolidated financial statements for additional information on transactions in which the issuer was an Affiliated Person (but not a portfolio company that the Company is deemed to control).
 - (z) A portion of this loan (principal of \$5,061) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company's revolving credit facility.
 - (aa) The PIK portion of the interest rate for Incipio Technologies, Inc. is structured as a fee paid upon the termination of the commitment. The fee currently accrues at 0.56% per annum.
 - (ab) A portion of this loan (principal of \$46) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company's revolving credit facility.
 - (ac) A portion of this loan (principal of \$1,015) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company's revolving credit facility.
 - (ad) A portion of this loan (principal of \$1,938) is held in the Company's wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP, and is therefore not collateral to the Company's revolving credit facility.
 - (ae) As defined in the 1940 Act, the Company is deemed to be both an "Affiliated Person" of and to "Control" this portfolio company as it owns more than 25% in company's voting securities. See Note 5 in the accompanying notes to the consolidated financial statements for additional information on transactions in which the issuer was both an Affiliated Person and a portfolio company that the Company is deemed to Control.
- n/a - not applicable

See Notes to Consolidated Financial Statements.

MONROE CAPITAL CORPORATION
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS
(unaudited)
(in thousands, except share and per share data)

Note 1. Organization and Principal Business

Monroe Capital Corporation (together with its subsidiaries, the “Company”) is an externally managed, non-diversified, closed-end management investment company and has elected to be treated as a business development company under the Investment Company Act of 1940, as amended (the “1940 Act”). The Company’s investment objective is to maximize the total return to its stockholders in the form of current income and capital appreciation through investment in senior secured, junior secured and unitranche secured (a combination of senior secured and junior secured debt in the same facility in which the Company syndicates a “first out” portion of the loan to an investor and retains a “last out” portion of the loan) debt and, to a lesser extent, unsecured subordinated debt and equity investments. The Company is managed by Monroe Capital BDC Advisors, LLC (“MC Advisors”), a registered investment adviser under the Investment Advisers Act of 1940, as amended. In addition, for U.S. federal income tax purposes, the Company has elected to be treated as a regulated investment company (“RIC”) under Subchapter M of the Internal Revenue Code of 1986, as amended (the “Code”).

On February 28, 2014, the Company’s wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP (“MRCC SBIC”), a Delaware limited partnership, received a license from the Small Business Administration (“SBA”) to operate as a Small Business Investment Company (“SBIC”) under Section 301(c) of the Small Business Investment Act of 1958, as amended. MRCC SBIC commenced operations on September 16, 2013. See Note 7 for additional information.

On September 12, 2018, the Company closed a public offering of \$69,000 in aggregate principal amount of senior unsecured notes (“2023 Notes”). On March 20, 2019, the Company completed a registered direct offering of \$40,000 in additional aggregate principal amount of the 2023 Notes. See Note 7 for additional information.

Note 2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying consolidated financial statements of the Company have been prepared in accordance with generally accepted accounting principles in the United States of America (“GAAP”). The accompanying consolidated financial statements of the Company and related financial information have been prepared pursuant to the requirements for reporting on Form 10-Q and Articles 6 or 10 of Regulation S-X. The Company has determined it meets the definition of an investment company and follows the accounting and reporting guidance in the Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 946 — *Financial Services — Investment Companies* (“ASC Topic 946”). Certain prior period amounts have been reclassified to conform to the current period presentation.

Use of Estimates

The preparation of the consolidated financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities as of the date of the consolidated financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Consolidation

As permitted under Regulation S-X and ASC Topic 946, the Company will generally not consolidate its investment in a portfolio company other than an investment company subsidiary or a controlled operating company whose business consists of providing services to the Company. Accordingly, the Company consolidated the results of the Company’s wholly-owned subsidiaries, MRCC SBIC and its wholly-owned general partner MCC SBIC GP, LLC, MRCC Holding Company I, LLC, MRCC Holding Company II, LLC, and MRCC Holding Company III, LLC, in its consolidated financial statements. All intercompany balances and transactions have been eliminated. The Company does not consolidate its non-controlling interest in MRCC Senior Loan Fund I, LLC (“SLF”). See further description of the Company’s investment in SLF in Note 3.

Fair Value of Financial Instruments

The Company applies fair value to substantially all of its financial instruments in accordance with ASC Topic 820 — Fair Value Measurements and Disclosures (“ASC Topic 820”). ASC Topic 820 defines fair value, establishes a framework used to measure fair value, and requires disclosures for fair value measurements, including the categorization of financial instruments into a three-level hierarchy based on the transparency of valuation inputs. See Note 4 for further discussion regarding the fair value measurements and hierarchy.

ASC Topic 820 requires disclosure of the fair value of financial instruments for which it is practical to estimate such value. The Company believes that the carrying amounts of its other financial instruments such as cash, receivables and payables approximate the fair value of such items due to the short maturity of such instruments.

Revenue Recognition

The Company’s revenue recognition policies are as follows:

Investments and related investment income: Interest and dividend income are recorded on the accrual basis to the extent that the Company expects to collect such amounts. Interest income is accrued based upon the outstanding principal amount and contractual terms of debt and preferred equity investments. Interest is accrued on a daily basis. The Company records fees on loans based on the determination of whether the fee is considered a yield enhancement or payment for a service. If the fee is considered a yield enhancement associated with a funding of cash on a loan, the fee is generally deferred and recognized into interest income using the effective interest method if captured in the cost basis or using the straight-line method if the loan is unfunded and therefore there is no cost basis. If the fee is not considered a yield enhancement because a service was provided, and the fee is payment for that service, the fee is deemed earned and recognized as fee income in the period the service has been completed.

Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies. Each distribution received from limited liability company (“LLC”) and limited partnership (“LP”) investments is evaluated to determine if the distribution should be recorded as dividend income or a return of capital. Generally, the Company will not record distributions from equity investments in LLCs and LPs as dividend income unless there are sufficient accumulated tax-basis earnings and profits in the LLC or LP prior to the distribution. Distributions that are classified as a return of capital are recorded as a reduction in the cost basis of the investment. For the three months ended March 31, 2019 and 2018, the Company received return of capital distributions from its preferred equity investments and its investment in LLC equity interests in SLF of zero and \$9,500, respectively.

Loan origination fees, original issue discount and market discount or premiums are capitalized, and the Company then amortizes such amounts using the effective interest method as interest income over the life of the investment. Unamortized discounts and loan origination fees totaled \$5,748 and \$5,172 as of March 31, 2019 and December 31, 2018, respectively. Upfront loan origination and closing fees received for the three months ended March 31, 2019 and 2018 totaled \$916 and \$316, respectively. For the three months ended March 31, 2019 and 2018, interest income included \$426 and \$1,032 of accretion of loan origination fees, original issue discounts and market discounts or premiums, respectively. Upon the prepayment of a loan or debt security, any unamortized premium or discount or loan origination fees are recorded as interest income. For the three months ended March 31, 2019 and 2018, interest income included \$113 and \$133 of unamortized discount or loan origination fees recorded as interest income upon prepayment of a loan or debt security, respectively.

The Company has certain investments in its portfolio that contain a payment-in-kind (“PIK”) interest provision, which represents contractual interest or dividends that are added to the principal balance and recorded as income. For the three months ended March 31, 2019 and 2018, interest income included \$1,054 and \$329 of PIK interest, respectively. For the three months ended March 31, 2019 and 2018, dividend income included \$13 and \$260 of PIK dividends, respectively. The Company stops accruing PIK interest or PIK dividend when it is determined that PIK interest or PIK dividend is no longer collectible. To maintain RIC tax treatment, and to avoid corporate tax, substantially all of this income must be paid out to stockholders in the form of distributions, even though the Company has not yet collected the cash.

Investment transactions are recorded on a trade-date basis. Realized gains or losses on portfolio investments are calculated based upon the difference between the net proceeds from the disposition and the amortized cost basis of the investment, without regard to unrealized gains or losses previously recognized. Realized gains and losses are recorded within net realized gain (loss) in the consolidated statements of operations. Changes in the fair value of investments from the prior period, as determined by the Company’s board of directors (the “Board”) through the application of the Company’s valuation policy, are included within net change in unrealized gain (loss) in the consolidated statements of operations.

Non-accrual: Loans or preferred equity securities are placed on non-accrual status when principal, interest or dividend payments become materially past due, or when there is reasonable doubt that principal, interest or dividends will be collected. Additionally, any original issue discount and market discount are no longer accreted to interest income as of the date the loan is placed on non-accrual status. Interest payments received on non-accrual loans may be recognized as income or applied to principal depending upon management's judgment. Non-accrual loans are restored to accrual status when past due principal, interest, or dividends are paid, and, in management's judgment are likely to remain current. The fair value of the Company's investments on non-accrual status totaled \$16,676 and \$16,802 at March 31, 2019 and December 31, 2018, respectively.

Partial loan sales: The Company follows the guidance in ASC Topic 860 — *Transfers and Servicing* ("ASC Topic 860"), when accounting for loan participations and other partial loan sales. Such guidance requires a participation or other partial loan sale to meet the definition of a "participating interest," as defined in the guidance, in order for sale treatment to be allowed. Participations or other partial loan sales which do not meet the definition of a participating interest remain as an investment on the Company's consolidated statements of assets and liabilities and the proceeds are recorded as a secured borrowing in the liabilities section of the consolidated statements of assets and liabilities until the definition of a sale is met. For these partial loan sales, the interest earned on the entire loan balance is recorded within "interest income" and the interest earned by the buyer in the partial loan sale is recorded within "interest and other debt financing expenses" in the accompanying consolidated statements of operations. Changes in the fair value of secured borrowings from the prior period, as determined by the Board through the application of the Company's valuation policy, are included as changes in unrealized gain (loss) on secured borrowings in the consolidated statements of operations. There were no partial loan sales for the periods reported.

Distributions

Distributions to common stockholders are recorded on the record date. The amount, if any, to be distributed is determined by the Board each quarter and is generally based upon the earnings estimated by management. Net realized capital gains, if any, are generally distributed at least annually.

The determination of the tax attributes for the Company's distributions is made annually, based upon its taxable income for the full year and distributions paid for the full year. Ordinary dividend distributions from a RIC do not qualify for the preferential tax rate on qualified dividend income from domestic corporations and qualified foreign corporations, except to the extent that the RIC received the income in the form of qualifying dividends from domestic corporations and qualified foreign corporations. The tax attributes for distributions will generally include both ordinary income and capital gains, but may also include qualified dividends or return of capital.

The Company has adopted a dividend reinvestment plan ("DRIP") that provides for the reinvestment of dividends on behalf of its stockholders, unless a stockholder has elected to receive dividends in cash. As a result, if the Company declares a cash dividend, the Company's stockholders who have not "opted out" of the DRIP at least three days prior to the dividend payment date will have their cash dividend automatically reinvested into additional shares of the Company's common stock. The Company has the option to satisfy the share requirements of the DRIP through the issuance of new shares of common stock or through open market purchases of common stock by the DRIP plan administrator. Newly issued shares are valued based upon the final closing price of the Company's common stock on a date determined by the Board. Shares purchased in the open market to satisfy the DRIP requirements will be valued based upon the average price of the applicable shares purchased by the DRIP plan administrator, before any associated brokerage or other costs. See Note 9 for additional information on the Company's distributions.

Earnings per Share

In accordance with the provisions of ASC Topic 260 — *Earnings per Share* ("ASC Topic 260"), basic earnings per share is computed by dividing earnings available to common stockholders by the weighted average number of shares outstanding during the period. The weighted average shares outstanding utilized in the calculation of earnings per share take into account share issues on the issuance date and the Company's repurchases of its common stock on the repurchase date. See Note 10 for additional information on the Company's share activity. For the periods presented in these consolidated financial statements, there were no potentially dilutive common shares issued.

Segments

In accordance with ASC Topic 280 — *Segment Reporting*, the Company has determined that it has a single reporting segment and operating unit structure.

Cash

The Company deposits its cash in a financial institution and, at times, such balances may be in excess of the Federal Deposit Insurance Corporation insurance limits.

Restricted Cash

Restricted cash includes amounts held within MRCC SBIC. Cash held within an SBIC is generally restricted to the originations of new loans from the SBIC and the payment of SBA debentures and related interest expense.

Unamortized Deferred Financing Costs

Deferred financing costs represent fees and other direct incremental costs incurred in connection with the Company's borrowings. As of March 31, 2019 and December 31, 2018, the Company had unamortized deferred financing costs of \$9,265 and \$6,262, respectively, presented as a direct reduction of the carrying amount of debt on the consolidated statements of assets and liabilities. These amounts are amortized and included in interest expense in the consolidated statements of operations over the estimated average life of the borrowings. Amortization of deferred financing costs for the three months ended March 31, 2019 and 2018 was \$433 and \$281, respectively.

Offering Costs

Offering costs include, among other things, fees paid in relation to legal, accounting, regulatory and printing work completed in preparation of debt and equity offerings. Offering costs from equity offerings are charged against the proceeds from the offering within the consolidated statements of changes in net assets. Offering costs from debt offerings are reclassified to deferred financing costs on the consolidated statements of assets and liabilities as noted above. As of March 31, 2019 and December 31, 2018, other assets on the consolidated statements of assets and liabilities included \$195 and \$328, respectively, of deferred offering costs which will be charged against the proceeds from future debt or equity offerings when completed.

Investments Denominated in Foreign Currency

As of both March 31, 2019 and December 31, 2018, the Company held investments in two portfolio companies that were denominated in Great Britain pounds.

At each balance sheet date, portfolio company investments denominated in foreign currencies are translated into U.S. dollars using the spot exchange rate on the last business day of the period. Purchases and sales of foreign portfolio company investments, and any income from such investments, are translated into U.S. dollars using the rates of exchange prevailing on the respective dates of such transactions.

Although the fair values of foreign portfolio company investments and the fluctuation in such fair values are translated into U.S. dollars using the applicable foreign exchange rates described above, the Company does not isolate the portion of the change in fair value resulting from foreign currency exchange rates fluctuations from the change in fair value of the underlying investment. All fluctuations in fair value are included in net change in unrealized gain (loss) in the Company's consolidated statements of operations.

Investments denominated in foreign currencies and foreign currency transactions may involve certain consideration and risks not typically associated with those of domestic origin, including unanticipated movements in the value of the foreign currency relative to the U.S. dollar.

Derivative Instruments

The Company may enter into foreign currency forward contracts to reduce the Company's exposure to foreign currency exchange rate fluctuations. In a foreign currency forward contract, the Company agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. Foreign currency forward contracts are marked-to-market based on the difference between the forward rate and the exchange rate at the current period end. Unrealized gain (loss) on foreign currency forward contracts are recorded on the Company's consolidated statements of assets and liabilities by counterparty on a net basis.

The Company does not utilize hedge accounting and as such values its foreign currency forward contracts at fair value with the unrealized gain or loss recorded in net change in unrealized gain (loss) from foreign currency forward contracts and the realized gain or loss recorded in net realized gain (loss) from foreign currency forward contracts in the Company's consolidated statements of operations.

Income Taxes

The Company has elected to be treated as a RIC under Subchapter M of the Code and operates in a manner so as to qualify for the tax treatment available to RICs. To maintain qualification as a RIC, the Company must, among other things, meet certain source-of-income and asset diversification requirements and distribute to stockholders, for each taxable year, at least 90% of the Company's "investment company taxable income," which is generally the Company's net ordinary income plus the excess, if any, of realized net short-term capital gains over realized net long-term capital losses. If the Company qualifies as a RIC and satisfies the annual distribution requirement, the Company will not have to pay corporate-level federal income taxes on any income that the Company distributes to its stockholders. The Company intends to make distributions in an amount sufficient to maintain RIC status each year and to avoid any federal income taxes on income. The Company is also subject to nondeductible federal excise taxes if the Company does not distribute at least 98% of net ordinary income, 98.2% of any capital gain net income, if any, and any recognized and undistributed income from prior years for which it paid no federal income taxes. To the extent that the Company determines that its estimated current year annual taxable income may exceed estimated current year dividend distributions, the Company accrues excise tax, calculated as 4% of the estimated excess taxable income, if any, as taxable income is earned. For the three months ended March 31, 2019 and 2018, (\$7) and \$11, respectively, were recorded on the consolidated statements of operations for U.S. federal excise taxes. As of March 31, 2019 and December 31, 2018, receivables for excise taxes of \$137 and zero, respectively, were included in other assets on the consolidated statements of assets and liabilities.

The Company accounts for income taxes in conformity with ASC Topic 740 — *Income Taxes* ("ASC Topic 740"). ASC Topic 740 provides guidelines for how uncertain tax positions should be recognized, measured, presented and disclosed in the consolidated financial statements. ASC Topic 740 requires the evaluation of tax positions taken in the course of preparing the Company's tax returns to determine whether the tax positions are "more-likely-than-not" to be sustained by the applicable tax authority. Tax benefits of positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax expense in the current year. It is the Company's policy to recognize accrued interest and penalties related to uncertain tax benefits in income tax expense. There were no material uncertain income tax positions through March 31, 2019. The 2015 through 2018 tax years remain subject to examination by U.S. federal and state tax authorities.

Subsequent Events

The Company has evaluated the need for disclosures and/or adjustments resulting from subsequent events through the date the consolidated financial statements were issued. There have been no subsequent events that occurred during such period that would require disclosure in this Form 10-Q or would be required to be recognized in the consolidated financial statements as of and for the three months ended March 31, 2019.

Recent Accounting Pronouncements

In August 2018, the FASB issued ASU 2018-13, Fair Value Measurement (Topic 820): *Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement* ("ASU 2018-13"). The primary objective of ASU 2018-13 is to improve the effectiveness of the disclosure requirements for fair value measurements in the notes to the financial statements. ASU 2018-13 is effective for interim and annual reporting periods beginning after December 15, 2019, although early adoption is permitted. Management is currently evaluating the impact these changes will have on the Company's consolidated financial statements and disclosures.

Note 3. Investments

The following tables show the composition of the investment portfolio, at amortized cost and fair value (with corresponding percentage of total portfolio investments):

	March 31, 2019		December 31, 2018	
Amortized Cost:				
Senior secured loans	\$ 470,393	77.5%	\$ 443,381	78.6%
Unitranche secured loans	71,145	11.7	60,029	10.7

MRC Senior Loan Fund I, LLC

The Company co-invests with NLV Financial Corporation (“NLV”) in senior secured loans through SLF, an unconsolidated Delaware LLC. SLF is capitalized as underlying investment transactions are completed, taking into account available debt and equity commitments available for funding these investments. All portfolio and investment decisions in respect to SLF must be approved by the SLF investment committee, consisting of one representative from the Company and one representative from NLV. SLF may cease making new investments upon notification of either member but operations will continue until all investments have been sold or paid-off in the normal course of business. Investments held by SLF are measured at fair value using the same valuation methodologies as described in Note 4. The Company’s investment is illiquid in nature as SLF does not allow for withdrawal from the LLC or the sale of a member’s interest unless approved by the board of members of SLF. The full withdrawal of a member would result in an orderly wind-down of SLF.

SLF’s profits and losses are allocated to the Company and NLV in accordance with their respective ownership interests. As of both March 31, 2019 and December 31, 2018, the Company and NLV each owned 50.0% of the LLC equity interests of SLF. As of March 31, 2019, SLF had \$100,000 in equity commitments from its members (in the aggregate), of which \$62,550 was funded. As of December 31, 2018, SLF had \$100,000 in commitments from its members (in the aggregate), of which \$54,400 was funded.

As of both March 31, 2019 and December 31, 2018, the Company had committed to fund \$50,000 of LLC equity interest subscriptions to SLF. As of March 31, 2019 and December 31, 2018, \$31,275 and \$27,200 of the Company’s LLC equity interest subscriptions to SLF had been called and contributed, net of return of capital distributions subject to recall, respectively.

For the three months ended March 31, 2019 and 2018, the Company received dividend income of \$770 and \$175 from its SLF LLC equity interests, respectively.

SLF has entered into a senior secured revolving credit facility (as amended, the “SLF Credit Facility”) with Capital One, N.A., through its wholly-owned subsidiary MRCC Senior Loan Fund I Financing SPV, LLC (“SLF SPV”), which as of March 31, 2019 allowed SLF SPV to borrow up to \$170,000 at any one time, subject to leverage and borrowing base restrictions. On January 9, 2019, the SLF SPV closed a \$20,000 upside to the SLF Credit Facility, bringing the maximum amount the SLF SPV is able to borrow up to the now current \$170,000. Borrowings under the SLF Credit Facility bear interest at an annual rate of LIBOR (three-month) plus 2.25%. The maturity date on the SLF Credit Facility is March 22, 2023.

SLF does not pay any fees to MC Advisors or its affiliates; however, SLF has entered into an administration agreement with Monroe Capital Management Advisors, LLC (“MC Management”), pursuant to which certain loan servicing and administrative functions are delegated to MC Management. SLF may reimburse MC Management for its allocable share of overhead and other expenses incurred by MC Management. For the three months ended March 31, 2019 and 2018, SLF incurred \$46 and zero, respectively, of allocable expenses. There are no agreements or understandings by which the Company guarantees any SLF obligations.

As of March 31, 2019 and December 31, 2018, SLF had total assets at fair value of \$199,433 and \$177,122, respectively. As of both March 31, 2019 and December 31, 2018, SLF had zero portfolio company investments on non-accrual status. The portfolio companies in SLF are in industries and geographies similar to those in which the Company may invest directly. Additionally, as of March 31, 2019 and December 31, 2018, SLF had commitments to fund various undrawn revolvers and delayed draw investments to its portfolio companies totaling \$6,868 and \$5,466, respectively.

Below is a summary of SLF’s portfolio, followed by a listing of the individual investments in SLF’s portfolio as of March 31, 2019 and December 31, 2018:

	As of	
	March 31, 2019	December 31, 2018
Senior secured loans ⁽¹⁾	191,232	174,267
Weighted average current interest rate on senior secured loans ⁽²⁾	7.6%	7.6%
Number of borrowers in SLF	55	50
Largest portfolio company investment ⁽¹⁾	6,913	6,930
Total of five largest portfolio company investments ⁽¹⁾	27,442	27,489

(1) Represents outstanding principal amount, excluding unfunded commitments.

(2) Computed as the (a) annual stated interest rate on accruing senior secured loans divided by (b) total senior secured loans at outstanding principal amount.

Note 4. Fair Value Measurements

Investments

The Company values all investments in accordance with ASC Topic 820. ASC Topic 820 requires enhanced disclosures about assets and liabilities that are measured and reported at fair value. As defined in ASC Topic 820, fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Where available, fair value is based on observable market prices or parameters, or derived from such prices or parameters. Where observable prices or inputs are not available, valuation models are applied. These valuation models involve some level of management estimation and judgment, the degree of which is dependent on the price transparency for the assets or liabilities or market and the assets' or liabilities' complexity.

ASC Topic 820 establishes a hierarchal disclosure framework which prioritizes and ranks the level of market price observability of inputs used in measuring investments at fair value. Market price observability is affected by a number of factors, including the type of investment and the characteristics specific to the investment. Investments with readily available active quoted prices or for which fair value can be measured from actively quoted prices generally will have a higher degree of market price observability and a lesser degree of judgment used in measuring fair value.

Based on the observability of the inputs used in the valuation techniques, the Company is required to provide disclosures on fair value measurements according to the fair value hierarchy. The fair value hierarchy ranks the observability of the inputs used to determine fair values. Investments carried at fair value are classified and disclosed in one of the following three categories:

- Level 1 — Valuations based on unadjusted quoted prices in active markets for identical assets or liabilities at the measurement date.
- Level 2 — Valuations based on inputs other than quoted prices in active markets, including quoted prices for similar assets or liabilities, which are either directly or indirectly observable.
- Level 3 — Valuations based on inputs that are unobservable and significant to the overall fair value measurement. This includes situations where there is little, if any, market activity for the assets or liabilities. The inputs into the determination of fair value are based upon the best information available and may require significant management judgment or estimation.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, an asset's or liability's categorization within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The Company's assessment of the significance of a particular input to the fair value measurement in its entirety requires judgment, and considers factors specific to the asset or liability. All investments, with the exception of investments measured at fair value using net asset value ("NAV"), as of March 31, 2019 and December 31, 2018 were categorized as Level 3 investments.

With respect to investments for which market quotations are not readily available, the Company's Board undertakes a multi-step valuation process each quarter, as described below:

- the quarterly valuation process begins with each portfolio company or investment being initially evaluated and rated by the investment professionals of MC Advisors responsible for the portfolio investment;
- the Board engages one or more independent valuation firm(s) to conduct independent appraisals of a selection of investments for which market quotations are not readily available. The Company will consult with independent valuation firm(s) relative to each portfolio company at least once in every calendar year, but are generally received quarterly;

- to the extent an independent valuation firm is not engaged to conduct an investment appraisal on an investment for which market quotations are not readily available, the investment will be valued by the MC Advisors investment professional responsible for the credit monitoring;
- preliminary valuation conclusions are then documented and discussed with the investment committee of the Company;
- the audit committee of the Board reviews the preliminary valuations of MC Advisors and of the independent valuation firm(s) and responds and supplements the valuation recommendations to reflect any comments; and
- the Board discusses these valuations and determines the fair value of each investment in the portfolio in good faith, based on the input of MC Advisors, the independent valuation firm(s) and the audit committee.

The accompanying consolidated schedules of investments held by the Company consist primarily of private debt instruments (“Level 3 debt”). The Company generally uses the income approach to determine fair value, as long as it is appropriate. If there is deterioration in credit quality or a debt investment is in workout status, the Company may consider other factors in determining the fair value, including the value attributable to the debt investment from the enterprise value of the portfolio company or the proceeds that would be received in a liquidation analysis. This liquidation analysis may include probability weighting of alternative outcomes. The Company generally considers its Level 3 debt to be performing loans if the borrower is not in default, the borrower is remitting payments in a timely manner; the loan is in covenant compliance or is otherwise not deemed to be impaired. In determining the fair value of the performing Level 3 debt, the Company considers fluctuations in current interest rates, trends in yields of debt instruments with similar credit ratings, financial condition of the borrower, economic conditions and other relevant factors, both qualitative and quantitative. In the event that a Level 3 debt instrument is not performing, as defined above, the Company will evaluate the value of the collateral utilizing the same framework described above for a performing loan to determine the value of the Level 3 debt instrument.

Under the income approach, the Company uses discounted cash flow models to determine the present value of the future cash flow streams of its debt investments, based on future interest and principal payments as set forth in the associated loan agreements. In determining fair value under the income approach, the Company also considers the following factors: applicable market yields and leverage levels, credit quality, prepayment penalties, the nature and realizable value of any collateral, the portfolio company’s ability to make payments, and changes in the interest rate environment and the credit markets that generally may affect the price at which similar investments may be made.

Under the market approach, the Company typically uses the enterprise value methodology to determine the fair value of an investment. There is no one methodology to estimate enterprise value and, in fact, for any one portfolio company, enterprise value is generally best expressed as a range of values, from which the Company derives a single estimate of enterprise value. In estimating the enterprise value of a portfolio company, the Company analyzes various factors consistent with industry practice, including but not limited to original transaction multiples, the portfolio company’s historical and projected financial results, applicable market trading and transaction comparables, applicable market yields and leverage levels, the nature and realizable value of any collateral, the markets in which the portfolio company does business, and comparisons of financial ratios of peer companies that are public. Typically, the enterprise values of private companies are based on multiples of earnings before interest, income taxes, depreciation and amortization (“EBITDA”), cash flows, net income, revenues, or in limited cases, book value.

In addition, for certain debt investments, the Company may base its valuation on indicative bid and ask prices provided by an independent third-party pricing service. Bid prices reflect the highest price that the Company and others may be willing to pay. Ask prices represent the lowest price that the Company and others may be willing to accept. The Company generally uses the midpoint of the bid/ask range as its best estimate of fair value of such investment.

Foreign Currency Forward Contracts

The valuation for the Company’s foreign currency forward contracts is based on the difference between the exchange rate associated with the forward contract and the exchange rate at the current period end. Foreign currency forward contracts are categorized as Level 2 in the fair value hierarchy.

Fair Value Disclosures

The following table presents fair value measurements of investments and foreign currency forward contracts, by major class, as of March 31, 2019, according to the fair value hierarchy:

	Fair Value Measurements			
	Level 1	Level 2	Level 3	Total
Investments:				
Senior secured loans	\$ —	\$ —	\$ 466,300	\$ 466,300
Unitranche secured loans	—	—	70,126	70,126
Junior secured loans	—	—	21,266	21,266
Equity securities	—	—	7,221	7,221
Investments measured at NAV ^{(1) (2)}	—	—	—	32,032
Total investments	\$ —	\$ —	\$ 564,913	\$ 596,945
Foreign currency forward contracts asset (liability)	\$ —	\$ (49)	\$ —	\$ (49)

(1) Certain investments that are measured at fair value using the NAV have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated statements of assets and liabilities.

(2) Represents the Company's investment in LLC equity interests in SLF. The fair value of this investment has been determined using the NAV of the Company's ownership interest in members' capital.

The following table presents fair value measurements of investments, by major class, as of December 31, 2018, according to the fair value hierarchy:

	Fair Value Measurements			
	Level 1	Level 2	Level 3	Total
Investments:				
Senior secured loans	\$ —	\$ —	\$ 439,068	\$ 439,068
Unitranche secured loans	—	—	58,852	58,852
Junior secured loans	—	—	21,154	21,154
Equity securities	—	—	6,913	6,913
Investments measured at NAV ^{(1) (2)}	—	—	—	27,634
Total investments	\$ —	\$ —	\$ 525,987	\$ 553,621
Foreign currency forward contracts asset (liability)	\$ —	\$ 16	\$ —	\$ 16

(1) Certain investments that are measured at fair value using the NAV have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the consolidated statements of assets and liabilities.

(2) Represents the Company's investment in LLC equity interests in SLF. The fair value of this investment has been determined using the NAV of the Company's ownership interest in members' capital.

Senior secured, unitranche secured and junior secured loans are collateralized by tangible and intangible assets of the borrowers. These investments include loans to entities that have some level of challenge in obtaining financing from other, more conventional institutions, such as a bank. Interest rates on these loans are either fixed or floating, and are based on current market conditions and credit ratings of the borrower. Excluding loans on non-accrual, the contractual interest rates on the loans ranged between 8.00% to 17.00% at March 31, 2019 and 7.87% to 17.01% at December 31, 2018. The maturity dates on the loans outstanding at March 31, 2019 range between May 2019 and December 2025.

The following tables provide a reconciliation of the beginning and ending balances for investments that use Level 3 inputs for the three months ended March 31, 2019 and 2018:

	Investments				
	Senior secured loans	Unitranche secured loans	Junior secured loans	Equity securities	Total investments
Balance as of December 31, 2018	\$ 439,068	\$ 58,852	\$ 21,154	\$ 6,913	\$ 525,987
Net change in unrealized gain (loss)	142	236	108	48	534
Purchases of investments and other adjustments to cost ⁽¹⁾	66,757	506	4	260	67,527
Proceeds from principal payments and sales on investments ⁽²⁾	(28,977)	(158)	—	—	(29,135)
Reclassifications	(10,690)	10,690	—	—	—
Balance as of March 31, 2019	<u>\$ 466,300</u>	<u>\$ 70,126</u>	<u>\$ 21,266</u>	<u>\$ 7,221</u>	<u>\$ 564,913</u>

	Investments				
	Senior secured loans	Unitranche secured loans	Junior secured loans	Equity securities	Total investments
Balance as of December 31, 2017	\$ 387,874	\$ 40,295	\$ 38,549	\$ 17,780	\$ 484,498
Net change in unrealized gain (loss)	(3,927)	(136)	(17)	(3,008)	(7,088)
Purchases of investments and other adjustments to cost (1)	12,024	6,019	47	260	18,350
Proceeds from principal payments and sales on investments (2)	(15,856)	(202)	(1)	—	(16,059)
Reclassifications	—	—	—	—	—
Balance as of March 31, 2018	<u>\$ 380,115</u>	<u>\$ 45,976</u>	<u>\$ 38,578</u>	<u>\$ 15,032</u>	<u>\$ 479,701</u>

(1) Includes purchases of new investments, effects of refinancing and restructurings, premium and discount accretion and amortization and PIK interest.

(2) Represents net proceeds from investments sold and principal paydowns received.

The total change in unrealized gain (loss) included in the consolidated statements of operations for the three months ended March 31, 2019 and 2018, attributable to Level 3 investments still held at March 31, 2019 and 2018, was \$626 and (\$6,219), respectively. Reclassifications impacting Level 3 of the fair value hierarchy are reported as transfers in or out of Level 3 as of the beginning of the period which the reclassifications occur. There were no transfers among Levels 1, 2 and 3 during the three months ended March 31, 2019 and 2018.

Significant Unobservable Inputs

ASC Topic 820 requires disclosure of quantitative information about the significant unobservable inputs used in the valuation of assets and liabilities classified as Level 3 within the fair value hierarchy. Disclosure of this information is not required in circumstances where a valuation (unadjusted) is obtained from a third-party pricing service and the information regarding the unobservable inputs is not reasonably available to the Company and as such, the disclosures provided below exclude those investments valued in that manner. The tables below are not intended to be all-inclusive, but rather to provide information on significant unobservable inputs and valuation techniques used by the Company.

The valuation techniques and significant unobservable inputs used in recurring Level 3 fair value measurements of assets and liabilities as of March 31, 2019 were as follows:

	Fair Value	Valuation Technique	Unobservable Input	Weighted Average Mean	Range	
					Minimum	Maximum
Assets:						
Senior secured loans	\$ 340,376	Discounted cash flow	EBITDA multiples	6.8x	4.0x	13.5x
			Market yields	11.0%	7.5%	18.8%
Senior secured loans	57,800	Discounted cash flow	Revenue multiples	5.0x	3.3x	9.0x
			Market yields	8.4%	7.1%	10.0%
Senior secured loans	17,767	Liquidation	Probability weighting of alternative outcomes	90.0%	79.6%	100.0%
Senior secured loans	15,890	Enterprise value	Tangible book value multiples	1.5x	1.5x	1.5x
Senior secured loans	10,760	Enterprise value	EBITDA multiples	7.5x	7.0x	8.3x
Senior secured loans	8,682	Enterprise value	Revenue multiples	0.3x	0.3x	0.3x
Unitranche secured loans	49,111	Discounted cash flow	EBITDA multiples	7.8x	3.4x	10.0x
			Market yields	11.8%	9.3%	19.1%
Unitranche secured loans	12,991	Enterprise value	EBITDA multiples	3.5x	3.4x	8.5x
Unitranche secured loans	8,024	Discounted cash flow	Revenue multiples	4.8x	4.8x	4.8x
			Market yields	10.2%	10.2%	10.2%
Junior secured loans	2,292	Liquidation	Probability weighting of alternative outcomes	77.8%	77.8%	77.8%
Junior secured loans	1,109	Enterprise value	EBITDA multiples	3.4x	3.4x	3.4x
Equity securities	4,583	Liquidation	Probability weighting of alternative outcomes	59.0%	59.0%	59.0%
Equity securities	1,804	Enterprise value	EBITDA multiples	7.9x	3.4x	12.5x
Equity securities	662	Enterprise value	Revenue multiples	3.7x	2.0x	4.5x
Total Level 3 Assets	\$ 531,851⁽¹⁾					

(1) Excludes loans of \$33,062 at fair value where valuation (unadjusted) is obtained from a third-party pricing service for which such disclosure is not required.

The valuation techniques and significant unobservable inputs used in recurring Level 3 fair value measurements of assets and liabilities as of December 31, 2018 were as follows:

	Fair Value	Valuation Technique	Unobservable Input	Weighted Average Mean	Range	
					Minimum	Maximum
Assets:						
Senior secured loans	\$ 337,840	Discounted cash flow	EBITDA multiples	6.8x	3.8x	13.0x
			Market yields	11.1%	7.4%	19.0%
Senior secured loans	38,183	Discounted cash flow	Revenue multiples	3.5x	3.1x	4.5x
			Market yields	8.1%	7.7%	8.5%
Senior secured loans	17,770	Liquidation	Probability weighting of alternative outcomes	90.0%	79.4%	100.0%
Senior secured loans	13,153	Enterprise value	Tangible book value multiples	1.5x	1.5x	1.5x
Senior secured loans	10,474	Enterprise value	EBITDA multiples	7.5x	6.5x	8.3x
Senior secured loans	8,639	Enterprise value	Revenue multiples	0.4x	0.4x	0.4x
Unitranche secured loans	37,766	Discounted cash flow	EBITDA multiples	7.3x	4.5x	8.5x
			Market yields	12.6%	10.0%	20.2%
Unitranche secured loans	13,134	Enterprise value	EBITDA multiples	4.6x	4.5x	8.5x
Unitranche secured loans	7,952	Enterprise value	Revenue multiples	4.5x	4.5x	4.5x
Junior secured loans	2,292	Liquidation	Probability weighting of alternative outcomes	78.5%	78.5%	78.5%
Junior secured loans	1,260	Enterprise value	EBITDA multiples	4.5x	4.5x	4.5x
Equity securities	4,583	Liquidation	Probability weighting of alternative outcomes	59.0%	59.0%	59.0%
Equity securities	1,465	Enterprise value	EBITDA multiples	7.2x	4.5x	10.5x
Equity securities	650	Enterprise value	Revenue multiples	3.7x	2.0x	4.5x
Total Level 3 Assets	\$ 495,161⁽¹⁾					

(1) Excludes loans of \$30,826 at fair value where valuation (unadjusted) is obtained from a third-party pricing service for which such disclosure is not required.

The significant unobservable inputs used in the income approach of fair value measurement of the Company's investments is the discount rate used to discount the estimated future cash flows expected to be received from the underlying investment, which include both future principal and interest payments. Increases (decreases) in the discount rate would result in a decrease (increase) in the fair value estimate of the investment. Included in the consideration and selection of discount rates are the following factors: risk of default, rating of the investment and comparable investments, and call provisions.

The significant unobservable inputs used in the market approach of fair value measurement of the Company's investments are the market multiples of EBITDA or revenue of the comparable guideline public companies. The Company selects a population of public companies for each investment with similar operations and attributes of the portfolio company. Using these guideline public companies' data, a range of multiples of enterprise value to EBITDA or revenue is calculated. The Company selects percentages from the range of multiples for purposes of determining the portfolio company's estimated enterprise value based on said multiple and generally the latest twelve months EBITDA or revenue of the portfolio company (or other meaningful measure). Increases (decreases) in the multiple will result in an increase (decrease) in enterprise value, resulting in an increase (decrease) in the fair value estimate of the investment.

Other Financial Assets and Liabilities

ASC Topic 820 requires disclosure of the fair value of financial instruments for which it is practical to estimate such value. The Company believes that the carrying amounts of its other financial instruments such as cash, receivables and payables approximate the fair value of such items due to the short maturity of such instruments. Fair value of the Company's revolving credit facility is estimated by discounting remaining payments using applicable market rates or market quotes for similar instruments at the measurement date, if applicable. The Company believes that the carrying value of its revolving credit facility approximates fair value. As of March 31, 2019, the 2023 Notes were trading on The Nasdaq Global Select Market for \$24.92 per unit at par value. The par value at underwriting for the 2023 Notes was \$25.00 per unit. Based on this Level 1 input, the fair value of the \$109,000 in principal outstanding 2023 Notes was \$108,651. SBA debentures are carried at cost and with their longer maturity dates, fair value is estimated by discounting remaining payments using current market rates for similar instruments and considering such factors as the legal maturity date and the ability of market participants to prepay the debentures. As of both March 31, 2019 and December 31, 2018, the fair value of the Company's SBA debentures using Level 3 inputs were estimated at \$115,000, which is the same as the Company's carrying value of the SBA debentures.

Note 5. Transactions with Affiliated Companies

An affiliated company is a company in which the Company has an ownership interest of 5% or more of its voting securities. A controlled affiliate company is a company in which the Company has an ownership interest of more than 25% of its voting securities. Please see the Company's consolidated schedule of investments for the type of investment, principal amount, interest rate including the spread, and the maturity date. Transactions related to the Company's investments with affiliates for the three months ended March 31, 2019 and 2018 were as follows:

Portfolio Company	Fair value at December 31, 2018	Transfers in (out)	Purchases (cost)	Sales and paydowns (cost)	PIK interest (cost)	Discount accretion	Net realized gain (loss)	Net unrealized gain (loss)	Fair value at March 31, 2019
Non-controlled affiliate company

- (1) The Company provided a follow-on investment to Rockdale Blackhawk, LLC (“Rockdale”) during the three months ended March 31, 2018. In conjunction with the follow-on investment, the Company also received an additional 4.6% of the equity in Rockdale, increasing total equity ownership to 22.7%. On July 20, 2018, the Company put back its 22.7% equity investment in Rockdale in advance of a bankruptcy filing and therefore it is no longer an affiliated investment.
- (2) In December 2017, the Company transferred 16.0% of the equity interest in TPP Operating, Inc. (“TPP”) shares to a wholly-owned entity, MCC Holdco Equity Manager I, LLC (“MCC Holdco”), which has an independent manager who has full control over the operations of MCC Holdco, including the right to vote the shares of TPP Holdco LLC, the holding company which owns the Company’s equity interest in TPP. As a result, the Company then only controlled 24.0% of the voting interests in TPP, which is presented as a non-controlled affiliate company investment. During the twelve months ended December 31, 2018, TPP ceased operations and the Company, along with the other owners, appointed an assignee and pursuant to Delaware state law completed a General Assignment for the Benefit of Creditors to the assignee. The purpose of the assignment was to wind down the TPP business and distribute the assets to its creditors. The assignee informed the Company that it will have de minimis assets, if any, to distribute to its creditors. As a result, the Company realized a loss on TPP of \$24,503 during the year ended December 31, 2018.

For the three months ended March 31,

Note 6. Transactions with Related Parties

The Company has entered into an Investment Advisory and Management Agreement with MC Advisors, under which MC Advisors, subject to the overall supervision of the Board, provides investment advisory services to the Company. The Company pays MC Advisors a fee for its services under the Investment Advisory and Management Agreement consisting of two components — a base management fee and an incentive fee. The base management fee is calculated at an annual rate equal to 1.75% of invested assets (calculated as total assets excluding cash, which includes assets financed using leverage) and is payable in arrears. Base management fees for the three months ended March 31, 2019 and 2018 were \$2,521 and \$2,163, respectively.

The incentive fee consists of two parts. The first part is calculated and payable quarterly in arrears and equals 20% of “pre-incentive fee net investment income” for the immediately preceding quarter, subject to a 2% (8% annualized) preferred return, or “hurdle,” and a “catch up” feature. The foregoing incentive fee is subject to a total return requirement, which provides that no incentive fee in respect of pre-incentive fee net investment income will be payable except to the extent that 20% of the cumulative net increase in net assets resulting from operations over the then current and 11 preceding calendar quarters exceeds the cumulative incentive fees accrued and/or paid for the 11 preceding calendar quarters (the “Incentive Fee Limitation”). Therefore, any ordinary income incentive fee that is payable in a calendar quarter will be limited to the lesser of (1) 20% of the amount by which pre-incentive fee net investment income for such calendar quarter exceeds the 2% hurdle, subject to the “catch-up” provision, and (2) (x) 20% of the cumulative net increase in net assets resulting from operations for the then current and 11 preceding calendar quarters minus (y) the cumulative incentive fees accrued and/or paid for the 11 preceding calendar quarters. For the foregoing purpose, the “cumulative net increase in net assets resulting from operations” is the sum of pre-incentive fee net investment income, realized gains and losses and unrealized gains and losses for the then current and 11 preceding calendar quarters. The second part of the incentive fee is determined and payable in arrears as of the end of each fiscal year in an amount equal to 20% of realized capital gains, if any, on a cumulative basis from inception through the end of the year, computed net of all realized capital losses on a cumulative basis and unrealized depreciation, less the aggregate amount of any previously paid capital gain incentive fees.

The composition of the Company’s incentive fees was as follows:

	For the three months ended March 31,	
	2019	2018
Part one incentive fees ⁽¹⁾	\$ 1,678	\$ 1,845
Part two incentive fees ⁽²⁾	—	—
Incentive Fee Limitation	(78)	(1,084)
Incentive fees, excluding the impact of the incentive fee waiver	1,600	761
Incentive fee waiver ⁽³⁾	(281)	—
Total incentive fees, net of incentive fee waiver	<u>\$ 1,319</u>	<u>\$ 761</u>

(1) Based on net investment income.

(2) Based upon net realized and unrealized gains and losses, or capital gains. The Company accrues, but does not pay, a capital gains incentive fee in connection with any unrealized capital appreciation, as appropriate. If, on a cumulative basis, the sum of net realized gains (losses) plus net unrealized gain (loss) decreases during a period, the Company will reverse any excess capital gains incentive fee previously accrued such that the amount of capital gains incentive fee accrued is no more than 20% of the sum of net realized gains (losses) plus net unrealized gain (loss).

(3) Represents part one incentive fees waived by MC Advisors.

The Company has entered into an Administration Agreement with MC Management, under which the Company reimburses MC Management (subject to the review and approval of the Board) for its allocable portion of overhead and other expenses, including the costs of furnishing the Company with office facilities and equipment and providing clerical, bookkeeping, record-keeping and other administrative services at such facilities, and the Company’s allocable portion of the cost of the chief financial officer and chief compliance officer and their respective staffs. To the extent that MC Management outsources any of its functions, the Company will pay the fees associated with such functions on a direct basis, without incremental profit to MC Management. For the three months ended March 31, 2019 and 2018, the Company incurred \$863 and \$807, respectively, in administrative expenses (included within Professional fees, Administrative service fees and General and administrative expenses on the consolidated statements of operations) under the Administration Agreement, of which \$347 and \$324, respectively, was related to MC Management overhead and salary allocation and paid directly to MC Management. As of March 31, 2019 and December 31, 2018, \$338 and \$342, respectively, of expenses were due to MC Management under this agreement and are included in accounts payable and accrued expenses on the consolidated statements of assets and liabilities.

The Company has entered into a license agreement with Monroe Capital LLC under which Monroe Capital LLC has agreed to grant the Company a non-exclusive, royalty-free license to use the name “Monroe Capital” for specified purposes in its business. Under this agreement, the Company will have a right to use the “Monroe Capital” name at no cost, subject to certain conditions, for so long as the Advisor or one of its affiliates remains its investment advisor. Other than with respect to this limited license, the Company has no legal right to the “Monroe Capital” name.

As of March 31, 2019 and December 31, 2018, the Company had accounts payable to members of the Board of \$35 and zero, respectively, representing accrued and unpaid fees for their services.

Note 7. Borrowings

On June 20, 2018, the Company’s stockholders approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act to the Company. As a result of this approval, the Company is now permitted to borrow amounts such that its asset coverage ratio, as defined in the 1940 Act, is at least 150% after such borrowing (if certain requirements are met), rather than 200%, as previously required. As of March 31, 2019 and December 31, 2018, the Company’s asset coverage ratio based on aggregate borrowings outstanding was 198% and 223%, respectively.

Revolving Credit Facility: On March 1, 2019, the Company amended and restated its revolving credit facility (as amended and restated and further amended on March 20, 2019, the “Amended Credit Agreement”) with ING Capital LLC, as agent. Among other things, the Amended Credit Agreement increased the size of the facility from \$200,000 to \$255,000 (with an accordion feature that permits the Company, under certain circumstances, to increase the size of the facility up to \$400,000), extended the period during which the Company may make draws under the revolving credit facility from expiring on December 14, 2019 to expiring on March 1, 2023, extended the final maturity date from December 14, 2020 to March 1, 2024, lowered the interest rate margins (a) for LIBOR loans (which may be one, three or six month, at the Company’s option), from 2.75% to 2.375% and (b) for alternate base rate loans, from 1.75% to 1.375%, reduced the asset coverage covenant from 2.1 to 1 to 1.5 to 1, replaced the consolidated interest coverage ratio with a minimum senior debt coverage ratio of 2 to 1 (in addition to the asset coverage ratio noted above), and increased the advance rate against certain types of assets in the Company’s portfolio. The Company incurred expenses of \$1,751 in conjunction with the amendment which have been capitalized within unamortized deferred financing costs and are amortized into interest expense over the estimated average life of the borrowings.

As of March 31, 2019, the maximum amount the Company was able to borrow was \$255,000 and this borrowing can be increased to \$400,000 pursuant to an accordion feature (subject to maintaining 150% asset coverage, as defined by the 1940 Act). The revolving credit facility is secured by a lien on all of the Company’s assets, including cash on hand, but excluding the assets of the Company’s wholly-owned subsidiary, MRCC SBIC. The Company may make draws under the revolving credit facility to make or purchase additional investments through March 1, 2023 and for general working capital purposes until March 1, 2024, the maturity date of the revolving credit facility.

The Company’s ability to borrow under the revolving credit facility is subject to availability under the borrowing base, which permits the Company to borrow up to 72.5% of the fair market value of its portfolio company investments depending on the type of the investment the Company holds and whether the investment is quoted. The Company’s ability to borrow is also subject to certain concentration limits, and continued compliance with the representations, warranties and covenants given by the Company under the facility. The revolving credit facility contains certain financial and restrictive covenants, including, but not limited to, the Company’s maintenance of: (1) a minimum consolidated total net assets at least equal to \$175,000 plus 65% of the net proceeds to the Company from sales of its equity securities after March 1, 2019; (2) a ratio of total assets (less total liabilities other than indebtedness) to total indebtedness of not less than 1.5 to 1; and (3) a senior debt coverage ratio of at least 2 to 1. The revolving credit facility also requires the Company to undertake customary indemnification obligations with respect to ING Capital LLC and other members of the lending group and to reimburse the lenders for expenses associated with entering into the credit facility. The revolving credit facility also has customary provisions regarding events of default, including events of default for nonpayment, change in control transactions at both Monroe Capital Corporation and MC Advisors, failure to comply with financial and negative covenants, and failure to maintain the Company’s relationship with MC Advisors. If the Company incurs an event of default under the revolving credit facility and fails to remedy such default under any applicable grace period, if any, then the entire revolving credit facility could become immediately due and payable, which would materially and adversely affect the Company’s liquidity, financial condition, results of operations and cash flows.

The Company's revolving credit facility also imposes certain conditions that may limit the amount of the Company's distributions to stockholders. Distributions payable in the Company's common stock under the DRIP are not limited by the revolving credit facility. Distributions in cash or property other than common stock are generally limited to 115% of the amount of distributions required to maintain the Company's status as a RIC.

As of March 31, 2019, the Company had U.S. dollar borrowings of \$127,050 and non-U.S. dollar borrowings denominated in Great Britain pounds of £14,800 (\$19,292 in U.S. dollars) under the revolving credit facility. As of December 31, 2018, the Company had U.S. dollar borrowings of \$117,150 and non-U.S. dollar borrowings denominated in Great Britain pounds of £14,800 (\$18,876 in U.S. dollars) under the revolving credit facility. The borrowings denominated in Great Britain pounds may be positively or negatively affected by movements in the rate of exchange between the U.S. dollar and the Great Britain pound. These movements are beyond the control of the Company and cannot be predicted. The borrowings denominated in Great Britain pounds are translated into U.S. dollars based on the spot rate at each balance sheet date. The impact resulting from changes in foreign currency borrowings is included in net change in unrealized gain (loss) on foreign currency and other transactions in the Company's consolidated statements of operations and totaled (\$416) and (\$442) for the three months ended March 31, 2019 and 2018, respectively.

Borrowings under the revolving credit facility bear interest, at the Company's election, at an annual rate of LIBOR (one-month, three-month or six-month at the Company's discretion based on the term of the borrowing) plus 2.375% or at a daily rate equal to 1.375% per annum plus the greater of the prime interest rate, the federal funds rate plus 0.5% or LIBOR plus 1.0%. In addition to the stated interest rate on borrowings under the revolving credit facility, the Company is required to pay a fee of 0.5% per annum on any unused portion of the revolving credit facility if the unused portion of the facility is less than 35% of the then available maximum borrowing or a fee of 1.0% per annum on any unused portion of the revolving credit facility if the unused portion of the facility is greater than or equal to 35% of the then available maximum borrowing. As of March 31, 2019 and December 31, 2018, the outstanding borrowings were accruing at a weighted average interest rate of 4.7% and 5.0%, respectively.

2023 Notes: On September 12, 2018, the Company closed a public offering of 2,760,000 units of senior unsecured notes at a public offering price of \$25.00 per unit, resulting in aggregate principal and gross proceeds of \$69,000. Aggregate underwriters' discounts and commissions were \$2,156 and deferred financing costs were \$450, resulting in net proceeds of approximately \$66,394. On March 20, 2019, the Company closed a registered direct offering of 1,600,000 units of 2023 Notes at an offering price of \$24.75 per unit, resulting in additional aggregate principal of \$40,000 and gross proceeds of \$39,600. Placement agent fees were \$530 and deferred financing costs were \$754, resulting in net proceeds of approximately \$38,316. The 2023 Notes will mature on October 31, 2023. Interest on the 2023 Notes is paid quarterly on January 31, April 30, July 31, and October 31, at an annual rate of 5.75%, commencing on October 31, 2018. The Company may redeem the 2023 Notes in whole or in part at any time or from time to time on or after October 31, 2020. The 2023 Notes are general, unsecured obligations and rank equal in right of payment with all of the Company's existing and future unsecured indebtedness. The 2023 Notes are listed on The Nasdaq Global Select Market under the trading symbol MRCCCL.

SBA Debentures: On February 28, 2014, the Company's wholly-owned subsidiary, MRCC SBIC received a license from the SBA to operate as a SBIC under Section 301(c) of the Small Business Investment Act of 1958, as amended. MRCC SBIC commenced operations on September 16, 2013.

The SBIC license allows MRCC SBIC to obtain leverage by issuing SBA debentures, subject to the issuance of a leverage commitment by the SBA and other customary procedures. SBA debentures are non-recourse, interest only debentures with interest payable semi-annually and have a ten-year maturity. The principal amount of SBA debentures is not required to be paid prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA debentures is fixed on a semi-annual basis (pooling date) at a market-driven spread over U.S. Treasury Notes with 10-year maturities. The SBA, as a creditor, has a superior claim to MRCC SBIC's assets over the Company's stockholders in the event the Company liquidates MRCC SBIC, or the SBA exercises its remedies upon an event of default.

SBA regulations currently limit the amount that an individual SBIC may borrow to a maximum of \$175,000 when it has at least \$87,500 in regulatory capital, receives a leverage commitment from the SBA and has been through an audit examination by the SBA subsequent to licensing. The SBA also limits a related group of SBICs (commonly referred to as a "family of funds") to a maximum of \$350,000 in total borrowings.

As of both March 31, 2019 and December 31, 2018, MRCC SBIC had \$57,624 in leverageable capital and the following SBA debentures outstanding:

Maturity Date	Interest Rate	Amount
September 2024	3.4%	\$ 12,920
March 2025	3.3%	14,800
March 2025	2.9%	7,080
September 2025	3.6%	5,200
March 2027	3.5%	20,000
September 2027	3.2%	32,100
March 2028	3.9%	18,520
September 2028	4.2%	4,380
Total		\$ 115,000

On October 2, 2014, the Company was granted exemptive relief from the SEC for permission to exclude the debt of MRCC SBIC guaranteed by the SBA from the asset coverage test under the 1940 Act. The receipt of this exemption for this SBA debt increases flexibility under the asset coverage test.

Components of interest expense: The components of the Company's interest expense and other debt financing expenses, average outstanding balances and average stated interest rates (i.e. the rate in effect plus spread) were as follows:

	Three months ended March 31,	
	2019	2018
Interest expense – revolving credit facility	\$ 1,895	\$ 1,557
Interest expense – 2023 Notes	1,056	—
Interest expense – SBA debentures	970	868
Amortization of deferred financing costs	433	281
Total interest and other debt financing expenses	\$ 4,354	\$ 2,706
Average outstanding balance	\$ 338,741	\$ 237,017
Average stated interest rate	4.7%	4.1%

Note 8. Derivative Instruments

The Company enters into foreign currency forward contracts from time to time to help mitigate the impact that an adverse change in foreign exchange rates would have on future interest cash flows from the Company's investments denominated in foreign currencies. As of March 31, 2019 and December 31, 2018, the counterparty to these foreign currency forward contracts was Bannockburn Global Forex, LLC. Net unrealized gain or loss on foreign currency forward contracts are included in net change in unrealized gain (loss) from foreign currency forward contracts and net realized gain or loss on forward currency forward contracts are included in net realized gain (loss) from foreign currency forward contracts in the accompanying consolidated statements of operations.

Certain information related to the Company's foreign currency forward contracts is presented below as of March 31, 2019 and December 31, 2018.

	As of March 31, 2019					Balance Sheet location of Net Amounts
	Notional Amount to be Sold	Settlement Date	Gross Amount of Unrealized Gain	Gross Amount of Unrealized Loss		
Foreign currency forward contract	£ 106	4/1/2019	\$ —	\$ (3)	Unrealized loss on foreign currency forward contracts

Foreign currency forward contract	£ 229	11/30/2020	2	—	Unrealized gain on foreign currency forward contracts
Total	<u>£ 2,570</u>		<u>\$ 16</u>	<u>\$ —</u>	

For the three months ended March 31, 2019 and 2018, the Company recognized net change in unrealized gain (loss) on foreign currency forward contracts of (\$65) and zero, respectively. For the three months ended March 31, 2019 and 2018, the Company recognized net realized gain (loss) on foreign currency forward contracts of (\$8) and zero, respectively.

Note 9. Distributions

The Company's distributions are recorded on the record date. The following table summarizes distributions declared during the three months ended March 31, 2019 and 2018:

Date Declared	Record Date	Payment Date	Amount Per Share	Cash Distribution	DRIP Shares Issued	DRIP Shares Value	DRIP Shares Repurchased in the Open Market	Cost of DRIP Shares Repurchased
Three months ended March 31, 2019:								
March 5, 2019	March 15, 2019	March 29, 2019	\$ 0.35	\$ 7,156	—	\$ —	27,498	\$ 342

Total distributions declared			<u>\$ 0.35</u>	<u>\$ 7,084</u>	<u>—</u>	<u>\$ —</u>	<u>23,908</u>	<u>\$ 301</u>

Note 10. Stock Issuances and Repurchases

Stock Issuances: On May 12, 2017, the Company entered into its current at-the-market ("ATM") securities offering program with JMP Securities LLC ("JMP") and FBR Capital Markets & Co. ("FBR") (the "ATM Program"). There were no stock issuances during the three months ended March 31, 2019 and 2018.

Note 11. Commitments and Contingencies

Commitments: As of March 31, 2019 and December 31, 2018, the Company had \$57,551 and \$56,041, respectively, in outstanding commitments to fund investments under undrawn revolvers, capital expenditure loans and delayed draw commitments. As described in Note 3, the Company had unfunded commitments of \$18,725 and \$22,800, respectively, to SLF, as of March 31, 2019 and December 31, 2018 that may be contributed primarily for the purpose of funding new investments approved by the SLF investment committee. Drawdowns of the commitments to SLF require authorization from one of the Company's representatives on SLF's board of managers.

Indemnifications: In the normal course of business, the Company enters into contracts and agreements that contain a variety of representations and warranties that provide general indemnifications. The Company's maximum exposure under these agreements is unknown, as these involve future claims that may be made against the Company but that have not occurred. The Company expects the risk of any future obligations under these indemnifications to be remote.

Concentration of credit and counterparty risk: Credit risk arises primarily from the potential inability of counterparties to perform in accordance with the terms of the contract. In the event that the counterparties do not fulfill their obligations, the Company may be exposed to risk. The risk of default depends on the creditworthiness of the counterparties or issuers of the instruments. It is the Company's policy to review, as necessary, the credit standing of each counterparty.

Market risk: The Company's investments and borrowings are subject to market risk. Market risk is the potential for changes in the value due to market changes. Market risk is directly impacted by the volatility and liquidity in the markets in which the investments and borrowings are traded.

Legal proceedings: In the normal course of business, the Company may be subject to legal and regulatory proceedings that are generally incidental to its ongoing operations. While there can be no assurance of the ultimate disposition of any such proceedings, the Company is not currently aware of any such proceedings or disposition that would have a material adverse effect on the Company's consolidated financial statements.

Note 12. Financial Highlights

The following is a schedule of financial highlights for the three months ended March 31, 2019 and 2018:

	<u>March 31, 2019</u>	<u>March 31, 2018</u>
Per share data:		
Net asset value at beginning of period	\$ 12.66	\$ 13.77
Net investment income ⁽¹⁾	0.35	0.42
Net gain (loss) ⁽¹⁾	0.01	(0.35)
Net increase in net assets from operations ⁽¹⁾	0.36	0.07
Stockholder distributions — income ⁽²⁾	(0.35)	(0.35)
Net asset value at end of period	<u>\$ 12.67</u>	<u>\$ 13.49</u>
Net assets at end of period	\$ 259,052	\$ 273,005
Shares outstanding at end of period	20,444,564	20,239,957
Per share market value at end of period	\$ 12.14	\$ 12.30
Total return based on market value ⁽³⁾	30.02%	(8.06)%
Total return based on average net asset value ⁽⁴⁾	2.87%	0.50%
Ratio/Supplemental data:		
Ratio of net investment income to average net assets ⁽⁵⁾	12.64%	13.29%
Ratio of total expenses, net of incentive fee waiver, to average net assets ^{(5) (6)}	12.67%	8.70%
Portfolio turnover ⁽⁷⁾	5.06%	5.16%

(1) Calculated using the weighted average shares outstanding during the periods presented.

(2) Management monitors available taxable earnings, including net investment income and realized capital gains, to determine if a tax return of capital may occur for the year. To the extent the Company's taxable earnings fall below the total amount of the Company's distributions for that fiscal year, a portion of those distributions may be deemed a tax return of capital to the Company's stockholders. The tax character of distributions will be determined at the end of the fiscal year. However, if the character of such distributions were determined as of March 31, 2019 and 2018, none of the distributions would have been characterized as a tax return of capital to the Company's stockholders; this tax return of capital may differ from the return of capital calculated with reference to net investment income for financial reporting purposes.

(3) Total return based on market value is calculated assuming a purchase of common shares at the market value on the first day and a sale at the market value on the last day of the periods reported. Distributions, if any, are assumed for purposes of this calculation to be reinvested at prices obtained under the Company's DRIP. Total return based on market value does not reflect brokerage commissions. Return calculations are not annualized.

- (4) Total return based on average net asset value is calculated by dividing the net increase in net assets from operations by the average net asset value. Return calculations are not annualized.
- (5) Ratios are annualized. Incentive fees included within the ratio are not annualized.
- (6) The following is a schedule of supplemental ratios for the three months ended March 31, 2019 and 2018. These ratios have been annualized unless otherwise noted.

	March 31, 2019	March 31, 2018
Ratio of interest and other debt financing expenses to average net assets	6.82%	3.98%
Ratio of total expenses (without incentive fees) to average net assets	12.16%	8.42%
Ratio of incentive fees, net of incentive fee waiver, to average net assets (not annualized) ⁽⁸⁾	0.51%	0.28%

- (7) Ratios are not annualized.
- (8) The ratio of waived incentive fees to average net assets was 0.11% and zero for three months ended March 31, 2019 and 2018, respectively.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Except as otherwise specified, references to “we,” “us” and “our” refer to Monroe Capital Corporation and its consolidated subsidiaries. The following discussion and analysis of our financial condition and results of operations should be read in conjunction with our consolidated financial statements and related notes appearing in our annual report on Form 10-K (the “Annual Report”) for the year ended December 31, 2018, filed with the U.S. Securities and Exchange Commission (“SEC”) on March 5, 2019. The information contained in this section should also be read in conjunction with our unaudited consolidated financial statements and related notes and other financial information appearing elsewhere in this quarterly report on Form 10-Q (the “Quarterly Report”).

FORWARD-LOOKING STATEMENTS

This Quarterly Report, including Management’s Discussion and Analysis of Financial Condition and Results of Operations, contains statements that constitute forward-looking statements, which relate to future events or our future performance or future financial condition. These forward-looking statements are not historical facts, but rather are based on current expectations, estimates and projections about our company, our industry, our beliefs and our assumptions. The forward-looking statements contained in this Quarterly Report involve risks and uncertainties, including statements as to:

- our future operating results;
- our business prospects and the prospects of our portfolio companies;
- the dependence of our future success on the general economy and its impact on the industries in which we invest;
- the impact of a protracted decline in the liquidity of credit markets on our business;
- the impact of increased competition;
- the impact of fluctuations in interest rates on our business and our portfolio companies;
- our contractual arrangements and relationships with third parties;
- the valuation of our investments in portfolio companies, particularly those having no liquid trading market;
- actual and potential conflicts of interest with MC Advisors and other affiliates of Monroe Capital;
- the ability of our portfolio companies to achieve their objectives;
- the use of borrowed money to finance a portion of our investments;
- the adequacy of our financing sources and working capital;
- the timing of cash flows, if any, from the operations of our portfolio companies;
- the ability of MC Advisors to locate suitable investments for us and to monitor and administer our investments;
- the ability of MC Advisors or its affiliates to attract and retain highly talented professionals;
- our ability to qualify and maintain our qualification as a RIC and as a business development company; and
- the impact of future legislation and regulation on our business and our portfolio companies.

We use words such as “anticipates,” “believes,” “expects,” “intends,” “seeks,” “plans,” “estimates,” “targets” and similar expressions to identify forward-looking statements. The forward-looking statements contained in this Quarterly Report involve risks and uncertainties. Our actual results could differ materially from those implied or expressed in the forward-looking statements for any reason, including the factors set forth in “Part I—Item 1A. Risk Factors” in our Annual Report and “Part II—Item 1A. Risk Factors” in this Quarterly Report.

Although we believe that the assumptions on which these forward-looking statements are based are reasonable, any of those assumptions could prove to be inaccurate, and as a result, the forward-looking statements based on those assumptions also could be inaccurate. Important assumptions include our ability to originate new loans and investments, certain margins and levels of profitability and the availability of additional capital. In light of these and other uncertainties, the inclusion of a projection or forward-looking statement in this Quarterly Report should not be regarded as a representation by us that our plans and objectives will be achieved.

We have based the forward-looking statements included in this Quarterly Report on information available to us on the date of this Quarterly Report, and we assume no obligation to update any such forward-looking statements. Although we undertake no obligation to revise or update any forward-looking statements in this Quarterly Report, whether as a result of new information, future events or otherwise, you are advised to consult any additional disclosures that we may make directly to you or through reports that we may file in the future with the Securities and Exchange Commission (the "SEC"), including Annual Reports on Form 10-K, Quarterly Reports on Form 10-Q and current reports on Form 8-K.

Overview

Monroe Capital Corporation is an externally managed, closed-end, non-diversified management investment company that has elected to be treated as a business development company ("BDC") under the Investment Company Act of 1940, as amended (the "1940 Act"). In addition, for tax purposes, we have elected to be treated as a regulated investment company ("RIC") under the subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). We are a specialty finance company focused on providing financing solutions primarily to lower middle-market companies in the United States and Canada. We provide customized financing solutions focused primarily on senior secured, junior secured and unitranche secured (a combination of senior secured and junior secured debt in the same facility in which we syndicate a "first out" portion of the loan to an investor and retain a "last out" portion of the loan) debt and, to a lesser extent, unsecured subordinated debt and equity, including equity co-investments in preferred and common stock, and warrants.

Our shares are currently listed on the NASDAQ Global Select Market under the symbol "MRCC".

Our investment objective is to maximize the total return to our stockholders in the form of current income and capital appreciation through investment in senior secured, unitranche secured and junior secured debt and, to a lesser extent, subordinated debt and equity investments. We seek to use our extensive leveraged finance origination infrastructure and broad expertise in sourcing loans to invest in primarily senior secured, unitranche secured and junior secured debt of middle-market companies. Our investments will generally range between \$2.0 million and \$18.0 million each, although this investment size may vary proportionately with the size of our capital base. As of March 31, 2019, our portfolio included approximately 78.1% senior secured debt, 11.7% unitranche secured debt, 3.6% junior secured debt and 6.6% equity securities, compared to December 31, 2018, when our portfolio included approximately 79.3% senior secured debt, 10.6% unitranche secured debt, 3.8% junior secured debt and 6.3% equity securities. We expect that the companies in which we invest may be leveraged, often as a result of leveraged buy-outs or other recapitalization transactions, and, in certain cases, will not be rated by national ratings agencies. If such companies were rated, we believe that they would typically receive a rating below investment grade (between BB and CCC under the Standard & Poor's system) from the national rating agencies.

While our primary focus is to maximize current income and capital appreciation through debt investments in thinly traded or private U.S. companies, we may invest a portion of the portfolio in opportunistic investments in order to seek to enhance returns to stockholders. Such investments may include investments in high-yield bonds, distressed debt, private equity or securities of public companies that are not thinly traded and securities of middle-market companies located outside of the United States. We expect that these public companies generally will have debt securities that are non-investment grade.

On February 28, 2014, our wholly-owned subsidiary, Monroe Capital Corporation SBIC, LP ("MRCC SBIC"), a Delaware limited partnership, received a license from the Small Business Administration ("SBA") to operate as a Small Business Investment Company ("SBIC") under Section 301(c) of the Small Business Investment Act of 1958. MRCC SBIC commenced operations on September 16, 2013. See "*SBA Debentures*" below for more information.

On September 12, 2018, we closed a public offering of \$69.0 million in aggregate principal amount of senior unsecured notes ("2023 Notes"). On March 20, 2019, we completed a registered direct offering of \$40.0 million in additional aggregate principal amount of our 2023 Notes. See "*2023 Notes*" below for more information.

Investment income

We generate interest income on the debt investments in portfolio company investments that we originate or acquire. Our debt investments, whether in the form of senior secured, unitranche secured or junior secured debt, typically have an initial term of three to seven years and bear interest at a fixed or floating rate. In some instances, we receive payments on our debt investment based on scheduled amortization of the outstanding balances. In addition, we receive repayments of some of our debt investments prior to their scheduled maturity date. In some cases, our investments provide for deferred interest of payment-in-kind (“PIK”) interest. In addition, we may generate revenue in the form of commitment, origination, amendment, structuring or due diligence fees, fees for providing managerial assistance and consulting fees. Loan origination fees, original issue discount and market discount or premium are capitalized, and we accrete or amortize such amounts as interest income. We record prepayment premiums and prepayment gains (losses) on loans as interest income. As the frequency or volume of the repayments which trigger these prepayment premiums and prepayment gains (losses) may fluctuate significantly from period to period, the associated interest income recorded may also fluctuate significantly from period to period. Interest and fee income are recorded on the accrual basis to the extent we expect to collect such amounts. Interest income is accrued based upon the outstanding principal amount and contractual terms of debt and preferred equity investments. Interest is accrued on a daily basis. We record fees on loans based on the determination of whether the fee is considered a yield enhancement or payment for a service. If the fee is considered a yield enhancement associated with a funding of cash on a loan, the fee is generally deferred and recognized into interest income using the effective interest method if captured in the cost basis or using the straight-line method if the loan is unfunded and therefore there is no cost basis. If the fee is not considered a yield enhancement because a service was provided, and the fee is payment for that service, the fee is deemed earned and recognized as fee income in the period the service has been completed.

Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies. Each distribution received from limited liability company (“LLC”) and limited partnership (“LP”) investments is evaluated to determine if the distribution should be recorded as dividend income or a return of capital. Generally, we will not record distributions from equity investments in LLCs and LPs as dividend income unless there are sufficient accumulated tax-basis earnings and profits in the LLC or LP prior to the distribution. Distributions that are classified as a return of capital are recorded as a reduction in the cost basis of the investment. The frequency and volume of the distributions on common equity securities and LLC and LP investments may fluctuate significantly from period to period.

Expenses

Our primary operating expenses include the payment of fees to Monroe Capital BDC Advisors, LLC (“MC Advisors”) under the Investment Advisory and Management Agreement (management and incentive fees), and the payment of fees to Monroe Capital Management Advisors, LLC (“MC Management”) for our allocable portion of overhead and other expenses under the Administration Agreement and other operating costs. See Note 6 to our consolidated financial statements and “*Related Party Transactions*” below for additional information on our Investment Advisory and Management Agreement and Administration agreement. Our expenses also include interest expense on our various forms of indebtedness. We bear all other out-of-pocket costs and expenses of our operations and transactions.

Net gain (loss)

We recognize realized gains or losses on investments based on the difference between the net proceeds from the disposition and the cost basis of the investment without regard to unrealized gains or losses previously recognized. We record current period changes in fair value of investments, secured borrowings, foreign currency and other transactions within net change in unrealized gain (loss) in the consolidated statements of operations.

Portfolio and Investment Activity

During the three months ended March 31, 2019, we invested \$36.2 million in eight new portfolio companies and \$33.9 million in 21 existing portfolio companies and had \$29.1 million in aggregate amount of sales and principal repayments, resulting in net investments of \$41.0 million for the period.

During the three months ended March 31, 2018, we invested \$4.9 million in one new portfolio company and \$27.6 million in 12 existing portfolio companies and had \$25.6 million in aggregate amount of sales and principal repayments, resulting in net investments of \$6.9 million for the period.

The following table shows portfolio yield by security type:

	March 31, 2019		December 31, 2018	
	Weighted Average Annualized Contractual Coupon Yield (1)	Weighted Average Annualized Effective Yield (2)	Weighted Average Annualized Contractual Coupon Yield (1)	Weighted Average Annualized Effective Yield (2)
Senior secured loans	10.0%	10.0%	10.2%	10.2%
Unitranche secured loans	10.4	10.7	10.3	10.8
Junior secured loans	10.0	10.0	9.0	9.0
Preferred equity securities	0.5	0.5	0.5	0.5
Total	9.9%	10.0%	10.0%	10.0%

- (1) The weighted average annualized contractual coupon yield at period end is computed by dividing (a) the interest income on debt investments and preferred equity investments (with a stated coupon rate) at the period end contractual coupon rate for each investment by (b) the par value of our debt investments (excluding debt investments acquired for no cost in a restructuring on non-accrual status) and the cost basis of our preferred equity investments. We exclude loans acquired for no cost in a restructuring on non-accrual within this metric as management believes this disclosure provides a better indication of return on invested capital. This exclusion impacts only the junior secured loans and total disclosed above. The weighted average contractual coupon yield including debt investments acquired for no cost in a restructuring on non-accrual status was 6.0% for junior secured loans and 9.7% in total as of March 31, 2019. The weighted average contractual coupon yield including debt investments acquired for no cost in a restructuring on non-accrual status was 5.6% for junior secured loans and 9.8% in total as of December 31, 2018.
- (2) The weighted average annualized effective yield on portfolio investments at period end is computed by dividing (a) interest income on debt investments and preferred equity investments (with a stated coupon rate) at the period end effective rate for each investment by (b) the par value of our debt investments (excluding debt investments acquired for no cost in a restructuring on non-accrual status) and the cost basis of our preferred equity investments. We exclude loans acquired for no cost in a restructuring on non-accrual within this metric as management believes this disclosure provides a better indication of return on invested capital. This exclusion impacts only the junior secured loans and total disclosed above. The weighted average effective yield including debt investments acquired for no cost in a restructuring on non-accrual status was 6.0% for junior secured loans and 9.7% in total as of March 31, 2019. The weighted average effective yield including debt investments acquired for no cost in a restructuring on non-accrual status was 5.6% for junior secured loans and 9.8% in total as of December 31, 2018. The weighted average annualized effective yield on portfolio investments is a metric on the investment portfolio alone and does not represent a return to stockholders. This metric is not inclusive of our fees and expenses, the impact of leverage on the portfolio or sales load that may be paid by investors.

The following table shows the composition of the investment portfolio (in thousands):

	March 31, 2019		December 31, 2018	
Fair Value:				
Senior secured loans	\$ 466,300	78.1%	\$ 439,068	79.3%
Unitranche secured loans	70,126	11.7	58,852	10.6
Junior secured loans	21,266	3.6	21,154	3.8
LLC equity interest in SLF	32,032	5.4	27,634	5.0
Equity securities	7,221	1.2	6,913	1.3
Total	\$ 596,945	100.0%	\$ 553,621	100.0%

Our portfolio composition remained relatively consistent with December 31, 2018. The overall decrease in contractual and effective yields on the portfolio during the three months ended March 31, 2019 was primarily attributed to general decreases in LIBOR combined with market spread compression, as new portfolio investments were at a slightly lower average spread than the average spread in the existing portfolio.

The following table shows the portfolio composition by industry grouping at fair value (in thousands):

	March 31, 2019		December 31, 2018	
Fair Value:				
Automotive	\$ 7,846	1.3%	\$ 7,878	1.4%
Banking, Finance, Insurance & Real Estate	59,563	10.0	55,839	10.1
Beverage, Food & Tobacco	15,850	2.7	15,544	2.8
Chemicals, Plastics & Rubber	15,106	2.5	14,971	2.7
Construction & Building	28,640	4.8	29,791	5.4
Consumer Goods: Durable	24,979	4.2	25,212	4.5
Consumer Goods: Non-Durable	20,927	3.5	19,181	3.5
Containers, Packaging & Glass	8,663	1.5	9,694	1.8
Energy: Oil & Gas	6,749	1.1	2,516	0.4
Environmental Industries	12,790	2.1	12,195	2.2
Healthcare & Pharmaceuticals	53,984	9.0	52,769	9.5
High Tech Industries	79,911	13.4	77,954	14.1
Hotels, Gaming & Leisure	20,043	3.4	20,264	3.7
Investment Funds & Vehicles	32,032	5.4	27,634	5.0
Media: Advertising, Printing & Publishing	20,935	3.5	21,908	4.0
Media: Broadcasting & Subscription	4,472	0.7	4,483	0.8
Media: Diversified & Production	11,263	1.9	5,000	0.9
Retail	31,950	5.3	31,866	5.8
Services: Business	96,099	16.1	73,336	13.2
Services: Consumer	17,850	3.0	17,846	3.2
Wholesale	27,293	4.6	27,740	5.0
Total	\$ 596,945	100.0%	\$ 553,621	100.0%

Portfolio Asset Quality

MC Advisors' portfolio management staff closely monitors all credits, with senior portfolio managers covering agented and more complex investments. The MC Advisors' monitoring process and projections developed by Monroe Capital both have daily, weekly, monthly and quarterly components and related reports, each to evaluate performance against historical, budget and underwriting expectations. MC Advisors' analysts will monitor performance using standard industry software tools to provide consistent disclosure of performance. When necessary, MC Advisors will update our internal risk ratings, borrowing base criteria and covenant compliance reports.

As part of the monitoring process, MC Advisors regularly assesses the risk profile of each of our investments and rates each of them based on an internal proprietary system that uses the categories listed below, which we refer to as MC Advisors' investment performance rating. For any investment rated in grades 3, 4 or 5, MC Advisors, through its internal Portfolio Management Group ("PMG"), will increase its monitoring intensity and prepare regular updates for the investment committee, summarizing current operating results and material impending events and suggesting recommended actions. The PMG is responsible for oversight and management of any investments rated in grades 3, 4, or 5. MC Advisors monitors and, when appropriate, changes the investment ratings assigned to each investment in our portfolio. In connection with our valuation process, MC Advisors reviews these investment ratings on a quarterly basis, and our board of directors (the "Board") reviews and affirms such ratings. A definition of the rating system follows:

Investment Performance Risk Rating

Risk Rating	Summary Description
Grade 1	Includes investments exhibiting the least amount of risk in our portfolio. The issuer is performing above expectations or the issuer's operating trends and risk factors are generally positive.
Grade 2	Includes investments exhibiting an acceptable level of risk that is similar to the risk at the time of origination. The issuer is generally performing as expected or the risk factors are neutral to positive.
Grade 3	Includes investments performing below expectations and indicates that the investment's risk has increased somewhat since origination. The issuer may be out of compliance with debt covenants; however, scheduled loan payments are generally not past due.
Grade 4	Includes an issuer performing materially below expectations and indicates that the issuer's risk has increased materially since origination. In addition to the issuer being generally out of compliance with debt covenants, scheduled loan payments may be past due (but generally not more than six months past due).
Grade 5	Indicates that the issuer is performing substantially below expectations and the investment risk has substantially increased since origination. Most or all of the debt covenants are out of compliance or payments are substantially delinquent. Investments graded 5 are not anticipated to be repaid in full.

Our investment performance risk ratings do not constitute any rating of investments by a nationally recognized statistical rating organization or reflect or represent any third-party assessment of any of our investments.

In the event of a delinquency or a decision to rate an investment grade 4 or grade 5, the PMG, in consultation with the investment committee, will develop an action plan. Such a plan may require a meeting with the borrower's management or the lender group to discuss reasons for the default and the steps management is undertaking to address the under-performance, as well as amendments and waivers that may be required. In the event of a dramatic deterioration of a credit, MC Advisors and the PMG form a team or engage outside advisors to analyze, evaluate and take further steps to preserve our value in the credit. In this regard, we would expect to explore all options, including in a private equity sponsored investment, assuming certain responsibilities for the private equity sponsor or a formal sale of the business with oversight of the sale process by us. The PMG and the investment committee have extensive experience in running debt work-out transactions and bankruptcies.

The following table shows the distribution of our investments on the 1 to 5 investment performance rating scale as of March 31, 2019 (in thousands):

Investment Performance Rating	Investments at Fair Value	Percentage of Total Investments
1	\$ —	—%
2	493,833	82.7
3	60,579	10.2
4	42,533	7.1
5	—	—
Total	<u>\$ 596,945</u>	<u>100.0%</u>

The following table shows the distribution of our investments on the 1 to 5 investment performance rating scale as of December 31, 2018 (in thousands):

Investment Performance Rating	Investments at Fair Value	Percentage of Total Investments
1	\$ —	—%
2	452,549	81.8
3	57,741	10.4
4	43,331	7.8
5	—	—
Total	<u>\$ 553,621</u>	<u>100.0%</u>

As of March 31, 2019, we had five borrowers with loans or preferred equity securities on non-accrual status (Curion Holdings, LLC (“Curion”) promissory notes, Education Corporation of America (“ECA”), Incipio, LLC (“Incipio”) third lien tranches, Millennial Brands LLC (“Millennial”), and Rockdale Blackhawk, LLC (“Rockdale”) pre-petition debt), and these investments totaled \$16.7 million in fair value, or 2.8% of our total investments at fair value. As of December 31, 2018, we had five borrowers with loans or preferred equity securities on non-accrual status (Curion promissory notes, ECA, Incipio third lien tranches, Millennial, and Rockdale pre-petition debt), and these investments totaled \$16.8 million in fair value, or 3.0% of our total investments at fair value. The Curion promissory notes and the Incipio third lien tranches were obtained in restructurings during the year ended December 31, 2018 for no cost. Loans or preferred equity securities are placed on non-accrual status when principal, interest or dividend payments become materially past due, or when there is reasonable doubt that principal, interest or dividends will be collected.

Results of Operations

Operating results were as follows (in thousands):

	Three months ended March 31,	
	2019	2018
Total investment income	\$ 16,159	\$ 14,950
Total expenses, net of incentive fee waiver	9,085	6,485
Net investment income	7,074	8,465
Net realized gain (loss) on foreign currency forward contracts	(8)	—
Net realized gain (loss) on foreign currency and other transactions	(1)	12
Net realized gain (loss)	(9)	12
Net change in unrealized gain (loss) on investments	857	(6,645)
Net change in unrealized gain (loss) on foreign currency forward contracts	(65)	—
Net change in unrealized gain (loss) on foreign currency and other transactions	(416)	(442)
Net change in unrealized gain (loss)	376	(7,087)
Net increase (decrease) in net assets resulting from operations	<u>\$ 7,441</u>	<u>\$ 1,390</u>

Investment Income

The composition of our investment income was as follows (in thousands):

	Three months ended March 31,	
	2019	2018
Interest income	\$ 13,214	\$ 12,297
Payment-in-kind interest income	1,054	329
Dividend income	783	435
Fee income	569	724
Prepayment gain (loss)	113	133
Accretion of discounts and amortization of premium	426	1,032
Total investment income	<u>\$ 16,159</u>	<u>\$ 14,950</u>

The increase in investment income of \$1.2 million during the three months ended March 31, 2019 as compared to the three months ended March 31, 2018, is primarily due to an increase in average outstanding loan balances and an increase in dividend income from our investment in SLF, partially offset by a decrease in fee income and a decline in effective rate on the portfolio as compared to the prior year period.

Operating Expenses

The composition of our operating expenses was as follows (in thousands):

	Three months ended March 31,	
	2019	2018
Interest and other debt financing expenses	\$ 4,354	\$ 2,706
Base management fees	2,521	2,163
Incentive fees, net of incentive fee waiver ⁽¹⁾	1,319	761
Professional fees	289	307
Administrative service fees	347	324
General and administrative expenses	227	176
Excise taxes	(7)	11
Directors' fees	35	37
Total expenses, net of incentive fee waiver	<u>\$ 9,085</u>	<u>\$ 6,485</u>

- (1) During the three months ended March 31, 2019 and 2018, MC Advisors waived part one incentive fees (based on net investment income) of \$281 thousand and zero, respectively. Incentive fees during the three months ended March 31, 2019 and 2018 were limited by \$78 thousand and \$1,084 thousand, respectively, due to the Incentive Fee Limitation. See Note 6 in our attached consolidated financial statements for additional information on the Incentive Fee Limitation.

The composition of our interest and other debt financing expenses, average outstanding balances and average stated interest rates (i.e. the rate in effect plus spread) were as follows (in thousands):

	Three months ended March 31,	
	2019	2018
Interest expense – revolving credit facility	\$ 1,895	\$ 1,557
Interest expense – 2023 Notes	1,056	—
Interest expense – SBA debentures	970	868
Amortization of deferred financing costs	433	281
Total interest and other debt financing expenses	\$ 4,354	\$ 2,706
Average outstanding balance	\$ 338,741	\$ 237,017
Average stated interest rate	4.7%	4.1%

The increase in expenses of \$2.6 million during the three months ended March 31, 2019, as compared to the three months ended March 31, 2018, is primarily due to an increase in interest expense as a result of additional borrowings (primarily the 2023 Notes) to support the larger average portfolio size and by an increase in incentive fees due to a reduction of the Incentive Fee Limitation during the three months ended March 31, 2019.

Net Realized Gain (Loss)

During both the three months ended March 31, 2019 and 2018, we had no sales or dispositions of investments, resulting in no net realized gains (losses) on investments.

We may enter into foreign currency forward contracts to reduce our exposure to foreign currency exchange rate fluctuations. During the three months ended March 31, 2019 and 2018, we had (\$8) thousand and zero of net realized gains (losses) on foreign currency forward contracts, respectively. During the three months ended March 31, 2019 and 2018, we had (\$1) thousand and \$12 thousand of net realized gains (losses) on foreign currency and other transactions, respectively.

Net Change in Unrealized Gain (Loss)

For the three months ended March 31, 2019 and 2018, our investments had \$0.9 million and (\$6.6) million of net change in unrealized gain (loss), respectively. The net change in unrealized gain (loss) includes both unrealized gain on investments in our portfolio with mark-to-market gains during the period and unrealized loss on investments in our portfolio with mark-to-market losses during the period. Tightening of credit spreads contributed to the net unrealized mark-to-market gains on the portfolio during the three months ended March 31, 2019.

For the three months ended March 31, 2019 and 2018, our foreign currency forward contracts had (\$65) thousand and zero of net change in unrealized gain (loss), respectively. For the three months ended March 31, 2019 and 2018, our foreign currency borrowings had (\$0.4) million and (\$0.4) million of net change in unrealized gain (loss), respectively.

Net Increase (Decrease) in Net Assets Resulting from Operations

For the three months ended March 31, 2019 and 2018, the net increase (decrease) in net assets from operations was \$7.4 million and \$1.4 million, respectively. Based on the weighted average shares of common stock outstanding for the three months ended March 31, 2019 and 2018, our per share net increase (decrease) in net assets resulting from operations was \$0.36 and \$0.07, respectively. The \$6.0 million increase during the three months ended March 31, 2019 as compared to the three months ended March 31, 2018, is primarily the result of relatively stable portfolio valuations during the three months ended March 31, 2019 as compared with the three months ended March 31, 2018.

Liquidity and Capital Resources

As of March 31, 2019, we had \$4.7 million in cash, \$17.3 million in cash at MRCC SBIC, \$146.3 million of total debt outstanding on our revolving credit facility, \$109.0 million in 2023 Notes and \$115.0 million in outstanding SBA debentures. We had \$108.7 million available for additional borrowings on our revolving credit facility. See “*Borrowings*” below for additional information.

Cash Flows

For the three months ended March 31, 2019 and 2018, we experienced a net increase in cash and restricted cash of \$4.3 million and \$3.0 million, respectively. For the three months ended March 31, 2019, operating activities used \$35.0 million, primarily as a result of purchases of portfolio investments, partially offset by principal repayments on portfolio investments. For the three months ended March 31, 2018, operating activities used \$1.2 million, primarily as a result of purchases of portfolio investments, partially offset by principal repayments on portfolio investments. During the three months ended March 31, 2019, we generated \$39.3 million from financing activities, primarily as a result of net proceeds from net borrowings on our revolving credit facility and 2023 Notes, partially offset by distributions to stockholders. During the three months ended March 31, 2018, we generated \$4.2 million from financing activities, primarily as a result of net proceeds from net borrowings on our revolving credit facility and SBA debenture borrowings, partially offset by distributions to stockholders.

Capital Resources

As a BDC, we distribute substantially all of our net income to our stockholders and have an ongoing need to raise additional capital for investment purposes. We intend to generate additional cash primarily from future offerings of securities, future borrowings and cash flows from operations, including income earned from investments in our portfolio companies. On both a short-term and long-term basis, our primary use of funds will be to invest in portfolio companies and make cash distributions to our stockholders.

As a BDC, we are generally not permitted to issue and sell our common stock at a price below net asset value per share. We may, however, sell our common stock, or warrants, options or rights to acquire our common stock, at a price below the then-current net asset value per share of our common stock if our Board, including independent directors, determines that such sale is in the best interests of us and our stockholders, and if our stockholders have approved such sales. On June 20, 2018 our stockholders voted to allow us to sell or otherwise issue common stock at a price below net asset value per share for a period of one year, subject to certain limitations. As of both March 31, 2019 and December 31, 2018, we had 20,444,564 shares outstanding.

On June 24, 2015, our stockholders approved a proposal to authorize us to issue warrants, options or rights to subscribe to, convert to, or purchase our common stock in one or more offerings. This is a standing authorization and does not require annual re-approval by our stockholders.

On June 20, 2018, our stockholders approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act. As a result of this approval, we are now permitted to borrow amounts such that our asset coverage ratio, as defined in the 1940 Act, is at least 150% after such borrowing (if certain requirements are met), rather than 200%, as previously required. As of March 31, 2019 and December 31, 2018, our asset coverage ratio based on aggregate borrowings outstanding was 198% and 223%, respectively.

Stock Issuances: On May 12, 2017, we entered into our current at-the-market (“ATM”) securities offering program with JMP Securities LLC (“JMP”) and FBR Capital Markets & Co. (“FBR”) (the “ATM Program”). There were no stock issuances during the three months ended March 31, 2019 and 2018.

Borrowings

Revolving Credit Facility: On March 1, 2019, we amended and restated our revolving credit facility (as amended and restated and further amended on March 20, 2019, the “Amended Credit Agreement”) with ING Capital LLC, as agent. Among other things, the Amended Credit Agreement increased the size of the facility from \$200.0 million to \$255.0 million (with an accordion feature that permits us, under certain circumstances, to increase the size of the facility up to \$400.0 million), extended the period during which we may make draws under the revolving credit facility from expiring on December 14, 2019 to expiring on March 1, 2023, extended the final maturity date from December 14, 2020 to March 1, 2024, lowered the interest rate margins (a) for LIBOR loans (which may be one, three or six month, at the Company’s option), from 2.75% to 2.375% and (b) for alternate base rate loans, from 1.75% to 1.375%, reduced the asset coverage covenant from 2.1 to 1 to 1.5 to 1, replaced the consolidated interest coverage ratio with a minimum senior debt coverage ratio of 2 to 1 (in addition to the asset coverage ratio noted above), and increased the advance rate against certain types of assets in our portfolio. We incurred expenses of \$1.8 million in conjunction with the amendment which have been capitalized within unamortized deferred financing costs and are amortized into interest expense over the estimated average life of the borrowings.

As of March 31, 2019, the maximum amount we are able to borrow was \$255.0 million and this borrowing can be increased to \$400.0 million pursuant to an accordion feature (subject to maintaining 150% asset coverage, as defined by the 1940 Act). The revolving credit facility is secured by a lien on all of our assets, including cash on hand, but excluding the assets of our wholly-owned subsidiary, MRCC SBIC. We may make draws under the revolving credit facility to make or purchase additional investments through March 1, 2023 and for general working capital purposes until March 1, 2024, the maturity date of the revolving credit facility.

Our ability to borrow under the revolving credit facility is subject to availability under the borrowing base, which permits us to borrow up to 72.5% of the fair market value of our portfolio company investments depending on the type of the investment we hold and whether the investment is quoted. Our ability to borrow is also subject to certain concentration limits, and continued compliance with the representations, warranties and covenants given by us under the facility. The revolving credit facility contains certain financial and restrictive covenants, including, but not limited to, our maintenance of: (1) a minimum consolidated total net assets at least equal to \$175.0 million plus 65% of the net proceeds to us from sales of our equity securities after March 1, 2019; (2) a ratio of total assets (less total liabilities other than indebtedness) to total indebtedness of not less than 1.5 to 1; and (3) a senior debt coverage ratio of at least 2 to 1. The revolving credit facility also requires us to undertake customary indemnification obligations with respect to ING Capital LLC and other members of the lending group and to reimburse the lenders for expenses associated with entering into the credit facility. The revolving credit facility also has customary provisions regarding events of default, including events of default for nonpayment, change in control transactions at both Monroe Capital Corporation and MC Advisors, failure to comply with financial and negative covenants, and failure to maintain our relationship with MC Advisors. If we incur an event of default under the revolving credit facility and fail to remedy such default under any applicable grace period, if any, then the entire revolving credit facility could become immediately due and payable, which would materially and adversely affect our liquidity, financial condition, results of operations and cash flows.

Our revolving credit facility also imposes certain conditions that may limit the amount of our distributions to stockholders. Distributions payable in our common stock under the DRIP are not limited by the revolving credit facility. Distributions in cash or property other than common stock are generally limited to 115% of the amount of distributions required to maintain our status as a RIC.

As of March 31, 2019, we had U.S. dollar borrowings of \$127.0 million and non-U.S. dollar borrowings denominated in Great Britain pounds of £14.8 million (\$19.3 million in U.S. dollars) under the revolving credit facility. As of December 31, 2018, we had U.S. dollar borrowings of \$117.1 million and non-U.S. dollar borrowings denominated in Great Britain pounds of £14.8 million (\$18.9 million in U.S. dollars) under the revolving credit facility. The borrowings denominated in Great Britain pounds may be positively or negatively affected by movements in the rate of exchange between the U.S. dollar and the Great Britain pound. These movements are beyond our control and cannot be predicted. The borrowings denominated in Great Britain pounds are translated into U.S. dollars based on the spot rate at each balance sheet date. The impact resulting from changes in foreign currency borrowings is included in net change in unrealized gain (loss) on foreign currency and other transactions in our consolidated statements of operations and totaled (\$0.4) million and (\$0.4) million for the three months ended March 31, 2019 and 2018, respectively.

Borrowings under the revolving credit facility bear interest, at our election, at an annual rate of LIBOR (one-month, three-month or six-month at our discretion based on the term of the borrowing) plus 2.375% or at a daily rate equal to 1.375% per annum plus the greater of the prime interest rate, the federal funds rate plus 0.5% or LIBOR plus 1.0%. In addition to the stated interest rate on borrowings under the revolving credit facility, we are required to pay a fee of 0.5% per annum on any unused portion of the revolving credit facility if the unused portion of the facility is less than 35% of the then available maximum borrowing or a fee of 1.0% per annum on any unused portion of the revolving credit facility if the unused portion of the facility is greater than or equal to 35% of the then available maximum borrowing. As of March 31, 2019 and December 31, 2018, the outstanding borrowings were accruing at a weighted average interest rate of 4.7% and 5.0%, respectively.

2023 Notes: On September 12, 2018, we closed a public offering of 2,760,000 units of senior unsecured notes at a public offering price of \$25.00 per unit, resulting in aggregate principal and gross proceeds of \$69.0 million. Aggregate underwriter's discounts and commissions were \$2.2 million and deferred financing costs were \$0.4 million, resulting in net proceeds of approximately \$66.4 million. On March 20, 2019, we closed a registered direct offering of 1,600,000 units of 2023 Notes at an offering price of \$24.75 per unit, resulting in additional aggregate principal of \$40.0 million and gross proceeds of \$39.6 million. Placement agent fees were \$0.5 million and deferred financing costs were \$0.8 million, resulting in net proceeds of approximately \$38.3 million. The 2023 Notes mature on October 31, 2023. Interest on the 2023 Notes is paid quarterly on January 31, April 30, July 31, and October 31, at an annual rate of 5.75%, commencing on October 31, 2018. We may redeem the 2023 Notes in whole or in part at any time or from time to time on or after October 31, 2020. The 2023 Notes are general, unsecured obligations and rank equal in right of payment with all of our existing and future unsecured indebtedness. The 2023 Notes are listed on The Nasdaq Global Select Market under the trading symbol MRCCCL.

SBA Debentures: On February 28, 2014, our wholly-owned subsidiary, MRCC SBIC, received a license from the SBA to operate as a SBIC under Section 301(c) of the Small Business Investment Act of 1958, as amended. MRCC SBIC commenced operations on September 16, 2013.

The SBIC license allows MRCC SBIC to obtain leverage by issuing SBA debentures, subject to the issuance of a leverage commitment by the SBA and other customary procedures. SBA debentures are non-recourse, interest only debentures with interest payable semi-annually and have a ten-year maturity. The principal amount of SBA debentures is not required to be paid prior to maturity but may be prepaid at any time without penalty. The interest rate of SBA debentures is fixed on a semi-annual basis (pooling date) at a market-driven spread over U.S. Treasury Notes with 10-year maturities. The SBA, as a creditor, has a superior claim to MRCC SBIC's assets over our stockholders in the event we liquidate MRCC SBIC, or the SBA exercises its remedies upon an event of default.

SBA regulations currently limit the amount that an individual SBIC may borrow to a maximum of \$175.0 million when it has at least \$87.5 million in regulatory capital, receives a leverage commitment from the SBA and has been through an audit examination by the SBA subsequent to licensing. The SBA also limits a related group of SBICs (commonly referred to as a "family of funds") to a maximum of \$350.0 million in total borrowings.

As of both March 31, 2019 and December 31, 2018, MRCC SBIC had \$57.6 million in leverageable capital and the following SBA debentures outstanding (in thousands):

Maturity Date	Interest Rate	Amount
September 2024	3.4%	\$ 12,920
March 2025	3.3%	14,800
March 2025	2.9%	7,080
September 2025	3.6%	5,200
March 2027	3.5%	20,000
September 2027	3.2%	32,100
March 2028	3.9%	18,520
September 2028	4.2%	4,380
Total		\$ 115,000

On October 2, 2014, we were granted exemptive relief from the SEC for permission to exclude the debt of MRCC SBIC guaranteed by the SBA from the asset coverage test under the 1940 Act. The receipt of this exemption for this SBA debt increases flexibility under the asset coverage test.

Distribution Policy

Our Board will determine the timing and amount, if any, of our distributions. We intend to pay distributions on a quarterly basis. In order to avoid corporate-level tax on the income we distribute as a RIC, we must distribute to our stockholders at least 90% of our ordinary income and realized net short-term capital gains in excess of realized net long-term capital losses, if any, on an annual basis out of the assets legally available for such distributions. In addition, we also intend to distribute any realized net capital gains (i.e., realized net long-term capital gains in excess of realized net short-term capital losses) at least annually out of the assets legally available for such distributions. Distributions to stockholders for the three months ended March 31, 2019 and 2018, totaled \$7.2 million (\$0.35 per share) and \$7.1 million (\$0.35 per share), respectively. The tax character of such distributions is determined at the end of the fiscal year. However, if the character of such distributions were determined as of March 31, 2019 and 2018, no portion of these distributions would have been characterized as a tax return of capital to stockholders.

We have adopted an "opt out" dividend reinvestment plan ("DRIP") for our common stockholders. As a result, if we declare a distribution, our stockholders' cash distributions will be automatically reinvested in additional shares of our common stock unless a stockholder specifically "opts out" of our DRIP. If a stockholder opts out, that stockholder will receive cash distributions. Although distributions paid in the form of additional shares of our common stock will generally be subject to U.S. federal, state and local taxes in the same manner as cash distributions, stockholders participating in our DRIP will not receive any corresponding cash distributions with which to pay any such applicable taxes.

MRCC Senior Loan Fund I, LLC

We co-invest with NLV Financial Corporation (“NLV”), in senior secured loans through SLF, an unconsolidated Delaware LLC. SLF is capitalized as underlying investment transactions are completed, taking into account available debt and equity commitments available for funding these investments. All portfolio and investment decisions in respect to SLF must be approved by the SLF investment committee, consisting of one representative of each of us and NLV. SLF may cease making new investments upon notification of either member but operations will continue until all investments have been sold or paid-off in the normal course of business. Investments held by SLF are measured at fair value using the same valuation methodologies as described below. Our investment is illiquid in nature as SLF does not allow for withdrawal from the LLC or the sale of a member’s interest unless approved by the board of members of SLF. The full withdrawal of a member would result in an orderly wind-down of SLF.

SLF’s profits and losses are allocated to us and NLV in accordance with the respective ownership interests. As of both March 31, 2019 and December 31, 2018, we and NLV each owned 50.0% of the LLC equity interests of SLF. As of March 31, 2019, SLF had \$100.0 million in equity commitments from its members (in the aggregate), of which \$62.6 million was funded. As of December 31, 2018, SLF had \$100.0 million in equity commitments from its members (in the aggregate), of which \$54.4 million was funded.

As of both March 31, 2019 and December 31, 2018, we have committed to fund \$50.0 million of LLC equity interest subscriptions to SLF. As of March 31, 2019 and December 31, 2018, \$31.3 million and \$27.2 million of our LLC equity interest subscriptions to SLF had been called and contributed, net of return of capital distributions subject to recall, respectively.

For the three months ended March 31, 2019 and 2018, we received \$0.8 million and \$0.2 million of dividend income from our SLF LLC equity interests, respectively.

SLF has entered into a senior secured revolving credit facility (as amended, the “SLF Credit Facility”) with Capital One, N.A., through its wholly-owned subsidiary MRCC Senior Loan Fund I Financing SPV, LLC (“SLF SPV”), which as of March 31, 2019 allowed SLF SPV to borrow up to \$170.0 million at any one time, subject to leverage and borrowing base restrictions. On January 9, 2019, the SLF SPV closed a \$20.0 million upsize to the SLF Credit Facility, bringing the maximum amount the SLF SPV is able to borrow up to the now current \$170.0 million. Borrowings under the SLF Credit Facility bear interest at an annual rate of LIBOR (three-month) plus 2.25%. The maturity date on the SLF Credit Facility is March 22, 2023.

SLF does not pay any fees to MC Advisors or its affiliates; however, SLF has entered into an administration agreement with MC Management, pursuant to which certain loan servicing and administrative functions are delegated to MC Management. SLF may reimburse MC Management for its allocable share of overhead and other expenses incurred by MC Management. For the three months ended March 31, 2019 and 2018, SLF incurred \$46 thousand and zero respectively, of allocable expenses. There are no agreements or understandings by which we guarantee any SLF obligations.

As of March 31, 2019 and December 31, 2018, SLF had total assets at fair value of \$199.4 million and \$177.1 million, respectively. As of both March 31, 2019 and December 31, 2018, SLF had zero portfolio company investments on non-accrual status. The portfolio companies in SLF are in industries and geographies similar to those in which we may invest directly. Additionally, as of March 31, 2019 and December 31, 2018, SLF had commitments to fund various undrawn revolvers and delayed draw loans to its portfolio companies totaling \$6.9 million and \$5.5 million, respectively.

Below is a summary of SLF’s portfolio, followed by a listing of the individual investments in SLF’s portfolio as of March 31, 2019 and December 31, 2018:

	As of	
	March 31, 2019	December 31, 2018
Senior secured loans ⁽¹⁾	191,232	174,267
Weighted average current interest rate on senior secured loans ⁽²⁾	7.6%	7.6%
Number of borrowers in SLF	55	50
Largest portfolio company investment ⁽¹⁾	6,913	6,930
Total of five largest portfolio company investments ⁽¹⁾	27,442	27,489

(1) Represents outstanding principal amount, excluding unfunded commitments. Principal amounts in thousands.

(2) Computed as the (a) annual stated interest rate on accruing senior secured loans divided by (b) total senior secured loans at outstanding principal amount.

Related Party Transactions

We have a number of business relationships with affiliated or related parties, including the following:

- We have an Investment Advisory and Management Agreement with MC Advisors, an investment advisor registered with the SEC, to manage our day-to-day operating and investing activities. We pay MC Advisors a fee for its services under the Investment Advisory and Management Agreement consisting of two components — a base management fee and an incentive fee. See Note 6 to our consolidated financial statements and “Significant Accounting Estimates and Critical Accounting Policies — *Capital Gains Incentive Fee*” for additional information.
- We have an Administration Agreement with MC Management to provide us with the office facilities and administrative services necessary to conduct our day-to-day operations. See Note 6 to our consolidated financial statements for additional information.
- SLF has an Administration Agreement with MC Management to provide SLF with certain loan servicing and administrative functions. SLF may reimburse MC Management for its allocable share of overhead and other expenses incurred by MC Management. See Note 3 to our consolidated financial statements and “Liquidity and Capital Resources — *MRCC Senior Loan Fund I, LLC*” for additional information.
- Theodore L. Koenig, our Chief Executive Officer and Chairman of our Board is also a manager of MC Advisors and the President and Chief Executive Officer of MC Management. Aaron D. Peck, our Chief Financial Officer and Chief Investment Officer, serves as a director on our Board and is also a managing director of MC Management.

- We have a license agreement with Monroe Capital LLC, under which Monroe Capital LLC has agreed to grant us a non-exclusive, royalty-free license to use the name “Monroe Capital” for specified purposes in our business.

In addition, we have adopted a formal code of ethics that governs the conduct of MC Advisors’ officers, directors and employees. Our officers and directors also remain subject to the duties imposed by both the 1940 Act and Maryland General Corporation Law.

Commitments and Contingencies and Off-Balance Sheet Arrangements

Commitments and Contingencies

As of March 31, 2019, and December 31, 2018, we had outstanding commitments to fund investments, excluding investments in SLF, totaling \$57.6 million and \$56.0 million, respectively. As of March 31, 2019, and December 31, 2018, we had unfunded commitments to SLF of \$18.7 million and \$22.8 million, respectively, that may be contributed primarily for the purpose of funding new investments approved by the SLF investment committee. Drawdowns of the commitments to SLF require authorization from one of our representatives on SLF’s board of managers. Additionally, we have entered into certain contracts with other parties that contain a variety of indemnifications. Our maximum exposure under these arrangements is unknown. However, we have not experienced claims or losses pursuant to these contracts and believe the risk of loss related to such indemnifications to be remote.

Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources.

Market Trends

We have identified the following trends that may affect our business:

Target Market: We believe that small and middle-market companies in the United States with annual revenues between \$10.0 million and \$2.5 billion represent a significant growth segment of the U.S. economy and often require substantial capital investments to grow. Middle-market companies have generated a significant number of investment opportunities for investment funds managed or advised by Monroe Capital, and we believe that this market segment will continue to produce significant investment opportunities for us.

Specialized Lending Requirements: We believe that several factors render many U.S. financial institutions ill-suited to lend to U.S. middle-market companies. For example, based on the experience of our management team, lending to U.S. middle-market companies (1) is generally more labor intensive than lending to larger companies due to the smaller size of each investment and the fragmented nature of information for such companies, (2) requires due diligence and underwriting practices consistent with the demands and economic limitations of the middle-market and (3) may also require more extensive ongoing monitoring by the lender.

Demand for Debt Capital: We believe there is a large pool of uninvested private equity capital for middle-market companies. We expect private equity firms will seek to leverage their investments by combining equity capital with senior secured loans and mezzanine debt from other sources, such as us.

Competition from Other Lenders: We believe that many traditional bank lenders, in recent years, de-emphasized their service and product offerings to middle-market businesses in favor of lending to large corporate clients and managing capital market transactions. In addition, many commercial banks face significant balance sheet constraints as they seek to build capital and meet future regulatory capital requirements. These factors may result in opportunities for alternative funding sources to middle-market companies and therefore drive increased new investment opportunities for us. Conversely, there has been a significant amount of capital raised over the past several years dedicated to middle market lending which has increased competitive pressure in the BDC and investment company marketplace for senior and subordinated debt which could result in lower yields and weaker financial covenants for new assets.

Pricing and Deal Structures: We believe that the volatility in global markets over the last several years and current macroeconomic issues including changes in bank regulations for middle-market banks has reduced access to, and availability of, debt capital to middle-market companies, causing a reduction in competition and generally more favorable capital structures and deal terms. Recent capital raises in the BDC and investment company marketplace have created increased competition; however, we believe that current market conditions may continue to create favorable opportunities to invest at attractive risk-adjusted returns.

Significant Accounting Estimates and Critical Accounting Policies

Revenue Recognition

We record interest and fee income on an accrual basis to the extent that we expect to collect such amounts. For loans and debt securities with contractual PIK interest, we do not accrue PIK interest if the portfolio company valuation indicates that such PIK interest is not collectible. We do not accrue as a receivable interest on loans and debt securities if we have reason to doubt our ability to collect such interest. Loan origination fees, original issue discount and market discount or premium are capitalized, and we then amortize such amounts using the effective interest method as interest income over the life of the investment. Upon the prepayment of a loan or debt security, any unamortized premium or discount or loan origination fees are recorded as interest income. We record prepayment premiums on loans and debt securities as interest income when we receive such amounts. Interest income is accrued based upon the outstanding principal amount and contractual terms of debt and preferred equity investments. Interest is accrued on a daily basis. We record fees on loans based on the determination of whether the fee is considered a yield enhancement or payment for a service. If the fee is considered a yield enhancement associated with a funding of cash on a loan, the fee is generally deferred and recognized into interest income using the effective interest method if captured in the cost basis or using the straight-line method if the loan is unfunded and therefore there is no cost basis. If the fee is not considered a yield enhancement because a service was provided, and the fee is payment for that service, the fee is deemed earned and recognized as fee income in the period the service has been completed.

Dividend income on preferred equity securities is recorded as dividend income on an accrual basis to the extent that such amounts are payable by the portfolio company and are expected to be collected. Dividend income on common equity securities is recorded on the record date for private portfolio companies. Each distribution received from LLC and LP investments is evaluated to determine if the distribution should be recorded as dividend income or a return of capital. Generally, we will not record distributions from equity investments in LLCs and LPs as dividend income unless there are sufficient accumulated tax-basis earnings and profits in the LLC or LP prior to the distribution. Distributions that are classified as a return of capital are recorded as a reduction in the cost basis of the investment.

Valuation of Portfolio Investments

As a BDC, we generally invest in illiquid securities including debt and, to a lesser extent, equity securities of middle-market companies. Under procedures established by our Board, we value investments for which market quotations are readily available and within a recent date at such market quotations. When doing so, we determine whether the quote obtained is sufficient in accordance with generally accepted accounting principles in the United States of America ("GAAP") to determine the fair value of the security. Debt and equity securities that are not publicly traded or whose market prices are not readily available or whose market prices are not regularly updated are valued at fair value as determined in good faith by our Board. Such determination of fair values may involve subjective judgments and estimates. Investments purchased within 60 days of maturity are valued at cost plus accreted discount, or minus amortized premium, which approximates fair value.

Our Board is ultimately and solely responsible for determining the fair value of the portfolio investments that are not publicly traded, whose market prices are not readily available on a quarterly basis in good faith or any other situation where portfolio investments require a fair value determination. Because we expect that there will not be a readily available market for many of the investments in our portfolio, we expect to value many of our portfolio investments at fair value as determined in good faith by our Board using a documented valuation policy and a consistently applied valuation process. Due to the inherent uncertainty of determining the fair value of investments that do not have a readily available market value, the fair value of our investments may differ significantly from the values that would have been used had a readily available market value existed for such investments, and the differences could be material.

With respect to investments for which market quotations are not readily available, our Board undertakes a multi-step valuation process each quarter, as described below:

- the quarterly valuation process begins with each portfolio company or investment being initially evaluated and rated by the investment professionals responsible for the credit monitoring of the portfolio investment;
- our Board engages one or more independent valuation firm(s) to conduct fair value appraisals of material investments for which market quotations are not readily available. These fair value appraisals for material investments are received at least once in every calendar year for each portfolio company investment, but are generally received quarterly;

- to the extent an independent valuation firm is not engaged to conduct an investment appraisal on an investment for which market quotations are not readily available, the investment will be valued by the MC Advisors investment professional responsible for the credit monitoring;
- preliminary valuation conclusions are then documented and discussed with the investment committee;
- our audit committee of the Board reviews the preliminary valuations of MC Advisors and of the independent valuation firm(s) and responds and supplements the valuation recommendations to reflect any comments; and
- our Board discusses these valuations and determines the fair value of each investment in the portfolio in good faith, based on the input of MC Advisors, the independent valuation firm(s) and the audit committee.

The Board generally uses the income approach to determine fair value, as long as it is appropriate. If there is deterioration in credit quality or a debt investment is in workout status, we may consider other factors in determining the fair value, including the value attributable to the debt investment from the enterprise value of the portfolio company or the proceeds that would be received in a liquidation analysis. This liquidation analysis may also include probability weighting of alternative outcomes. We generally consider our debt to be performing loans if the borrower is not in default, the borrower is remitting payments in a timely manner, the loan is in covenant compliance and is otherwise not deemed to be impaired. In determining the fair value of the performing debt, we consider fluctuations in current interest rates, trends in yields of debt instruments with similar credit ratings, financial condition of the borrower, economic conditions and other relevant factors, both qualitative and quantitative. In the event that a debt instrument is not performing, as defined above, we will evaluate the value of the collateral utilizing the same framework described above for a performing loan to determine the value of the debt instrument.

Under the income approach, we utilize discounted cash flow models to determine the present value of the future cash flow streams of our debt investments, based on future interest and principal payments as set forth in the associated loan agreements. In determining fair value under the income approach, we also consider the following factors: applicable market yields and leverage levels, credit quality, prepayment penalties, the nature and realizable value of any collateral, the portfolio company's ability to make payments, and changes in the interest rate environment and the credit markets that generally may affect the price at which similar investments may be made.

Under the market approach, we typically use the enterprise value methodology to determine the fair value of an investment. There is no one methodology to estimate enterprise value and, in fact, for any one portfolio company, enterprise value is generally best expressed as a range of values, from which we derive a single estimate of enterprise value. In estimating the enterprise value of a portfolio company, we analyze various factors consistent with industry practice, including but not limited to original transaction multiples, the portfolio company's historical and projected financial results, applicable market trading and transaction comparables, applicable market yields and leverage levels, the nature and realizable value of any collateral, the markets in which the portfolio company does business, and comparisons of financial ratios of peer companies that are public. Typically, the enterprise values of private companies are based on multiples of earnings before interest, income taxes, depreciation and amortization ("EBITDA"), cash flows, net income, revenues, or in limited cases, book value.

In addition, for certain debt investments, we may base our valuation on indicative bid and ask prices provided by an independent third-party pricing service. Bid prices reflect the highest price that we and others may be willing to pay. Ask prices represent the lowest price that we and others may be willing to accept. We generally use the midpoint of the bid/ask range as our best estimate of fair value of such investment.

Net Realized Gains or Losses and Net Change in Unrealized Gain or Loss

We measure realized gains or losses by the difference between the net proceeds from the sale and the amortized cost basis of the investment, without regard to unrealized gain or loss previously recognized. Net change in unrealized gain or loss reflects the change in portfolio investment values during the reporting period, including any reversal of previously recorded unrealized gain or loss, when gains or losses are realized. Additionally, we do not isolate the portion of the change in fair value resulting from foreign currency exchange rate fluctuations from the changes in fair values of the underlying investment. All fluctuations in fair value are included in net change in unrealized gain (loss) on our consolidated statements of operations. We report changes in the fair value of secured borrowings that are measured at fair value as a component of the net change in unrealized gain (loss) on secured borrowings in the consolidated statements of operations. The impact resulting from changes in foreign exchange rates on the revolving credit facility borrowings is included in net change in unrealized gain (loss) on foreign currency and other transactions.

Capital Gains Incentive Fee

Pursuant to the terms of the Investment Advisory and Management Agreement with MC Advisors, the incentive fee on capital gains earned on liquidated investments of our portfolio is determined and payable in arrears as of the end of each calendar year (or upon termination of the investment advisory and administrative services agreement). This fee equals 20% of our incentive fee capital gains (i.e., our realized capital gains on a cumulative basis from inception, calculated as of the end of the applicable period, net of all realized capital losses and unrealized capital depreciation on a cumulative basis), less the aggregate amount of any previously paid capital gains incentive fees. On a quarterly basis, we accrue for the capital gains incentive fee by calculating such fee as if it were due and payable as of the end of such period.

While the Investment Advisory and Management Agreement with MC Advisors neither includes nor contemplates the inclusion of unrealized gains in the calculation of the capital gains incentive fee, pursuant to an interpretation of an American Institute for Certified Public Accountants Technical Practice Aid for investment companies, we include unrealized gains in the calculation of the capital gains incentive fee expense and related accrued capital gains incentive fee. This accrual reflects the incentive fees that would be payable to MC Advisors if our entire portfolio was liquidated at its fair value as of the balance sheet date even though MC Advisors is not entitled to an incentive fee with respect to unrealized gains unless and until such gains are actually realized.

During each of the three months ended March 31, 2019 and 2018, we did not have any further reductions in accrued capital gains incentive fees as they were already at zero, primarily as a result of accumulated realized and unrealized losses on the portfolio.

New Accounting Pronouncements

In August 2018, the FASB issued ASU 2018-13, *Fair Value Measurement (Topic 820): Disclosure Framework – Changes to the Disclosure Requirements for Fair Value Measurement* (“ASU 2018-13”). The primary objective of ASU 2018-13 is to improve the effectiveness of the disclosure requirements for fair value measurements in the notes to the financial statements. ASU 2018-13 is effective for interim and annual reporting periods beginning after December 15, 2019, although early adoption is permitted. We are currently evaluating the impact these changes will have on our consolidated financial statements and disclosures.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

We are subject to financial market risks, including changes in interest rates. The majority of the loans in our portfolio have floating interest rates, and we expect that our loans in the future may also have floating interest rates. These loans are usually based on a floating LIBOR and typically have interest rate re-set provisions that adjust applicable interest rates under such loans to current market rates on a monthly or quarterly basis. The majority of the loans in our current portfolio have interest rate floors which will effectively convert the loans to fixed rate loans in the event interest rates decrease. In addition, our revolving credit facility has a floating interest rate provision, whereas our SBA debentures and the 2023 Notes have fixed interest rates until maturity. We expect that other credit facilities into which we enter in the future may have floating interest rate provisions.

Assuming that the consolidated statement of financial condition as of March 31, 2019 were to remain constant and that we took no actions to alter our existing interest rate sensitivity, the following table shows the annualized impact of hypothetical base rate changes in interest rates (in thousands):

Change in Interest Rates	Increase (decrease) in interest income	Increase (decrease) in interest expense	Net increase (decrease) in net investment income
Down 25 basis points	\$ (1,339)	\$ (366)	\$ (973)
Up 100 basis points	5,244	1,463	3,781
Up 200 basis points	10,653	2,927	7,726
Up 300 basis points	16,061	4,390	11,671

Although we believe that this analysis is indicative of our existing sensitivity to interest rate changes, it does not adjust for changes in the credit market, credit quality, the size and composition of the assets in our portfolio and other business developments, including borrowing under the credit facility or other borrowings that could affect net increase in net assets resulting from operations, or net income. Accordingly, we can offer no assurances that actual results would not differ materially from the analysis above.

We may in the future hedge against interest rate fluctuations by using standard hedging instruments such as futures, options and forward contracts to the extent permitted under the 1940 Act and applicable commodities laws. While hedging activities may insulate us against adverse changes in interest rates, they may also limit our ability to participate in the benefits of lower interest rates with respect to the investments in our portfolio with fixed interest rates or interest rate floors.

We may also have exposure to foreign currencies (currently the Great Britain pound) related to certain investments. Such investments are translated into U.S. dollars based on the spot rate at each balance sheet date, exposing us to movements in the exchange rate. In order to reduce our exposure to fluctuations in exchange rates, we generally borrow in Great Britain pounds under our revolving credit facility to finance such investments. As of March 31, 2019, we have non-U.S. dollar borrowings denominated in Great Britain pounds of £14.8 million (\$19.3 million U.S. dollars) outstanding under the revolving credit facility. We may also enter into foreign currency forward contracts to mitigate foreign currency exposure. As of March 31, 2019 we had foreign currency forward contracts in place for £2.2 million associated with future interest payments on certain investments.

ITEM 4. CONTROLS AND PROCEDURES

In accordance with Rules 13a-15(b) and 15d-15(b) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), we, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, carried out an evaluation of the effectiveness of our disclosure controls and procedures (as defined in Rule 13a-15(e) and Rule 15d-15(e) of the Exchange Act). Based on that evaluation, our management, including the Chief Executive Officer and Chief Financial Officer, concluded that, at the end of the period covered by our Quarterly Report on Form 10-Q, our disclosure controls and procedures were effective and provided reasonable assurance that information required to be disclosed in our periodic SEC filings is recorded, processed, summarized and reported within the time periods specified in the SEC’s rules and forms, and that such information is accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosure. Notwithstanding the foregoing, a control system, no matter how well designed and operated, can provide only reasonable, not absolute, assurance that it will detect or uncover failures within the Company to disclose material information otherwise required to be set forth in the Company’s periodic reports.

No change occurred in our internal control over financial reporting (as defined in Rules 13a-15(f) and 15d-15(f) of the Exchange Act) during the three months ended March 31, 2019 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II

OTHER INFORMATION

Item 1. Legal Proceedings

Neither we nor our investment adviser are currently subject to any material legal proceedings.

Item 1A. Risk Factors

In addition to the other information set forth in this report, you should carefully consider the risk factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2018 filed with the SEC on March 5, 2019, which could materially affect our business, financial condition and/or operating results. The risks described in our Annual Report on Form 10-K are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may materially and adversely affect our business, financial condition and/or operating results. Other than as set forth below, there have been no material changes during the three months ended March 31, 2019 to the risk factors discussed in Item 1A. Risk Factors in our Annual Report on Form 10-K for the year ended December 31, 2018.

Recently-enacted legislation allows us to incur additional leverage, which could increase the risk of investing in us.

The 1940 Act generally prohibits us from incurring indebtedness unless immediately after such borrowing we have an asset coverage for total borrowings of at least 200% (i.e., the amount of debt may not exceed 50% of the value of our total assets). However, on March 23, 2018, the Small Business Credit Availability Act (the "SBCAA") was signed into law, which included various changes to regulations under the federal securities laws that impact BDCs. The SBCAA amended the 1940 Act to allow BDCs to decrease their asset coverage requirement from 200% to 150% (i.e. the amount of debt may not exceed 66.7% of the value of our total assets), if certain requirements are met. Under the SBCAA, BDCs are allowed to reduce their asset coverage requirement to 150%, and thereby increase leverage capacity, if shareholders representing at least a majority of the votes cast, when quorum is met, approve a proposal to do so. If a BDC receives stockholder approval, it would be allowed to reduce its asset coverage requirement to 150% on the first day after such approval. Alternatively, the SBCAA allows the majority of a BDCs independent directors to approve the reduction in its asset coverage requirement to 150%, and such approval would become effective after one year. In either case, a BDC would be required to make certain disclosures on its website and in SEC filings regarding, among other things, the receipt of approval to reduce its asset coverage requirement to 150%, its leverage capacity and usage, and risks related to leverage.

On March 27, 2018, our board of directors unanimously approved the application of the modified asset coverage requirements set forth in Section 61(a)(2) of the 1940 Act, as amended by the SBCAA. On March 27, 2018, our board of directors also recommended the submission of a proposal for stockholders to approve the application of the 150% minimum asset coverage requirements at our annual meeting of stockholders held on June 20, 2018. At the annual meeting, our stockholders approved this proposal, and we became subject to the 150% minimum asset coverage ratio, effective June 21, 2018.

Leverage is generally considered a speculative investment technique and increases the risk of investing in our securities. Leverage magnifies the potential for loss on investments in our indebtedness and on invested equity capital. As we use leverage to partially finance our investments, you will experience increased risks of investing in our securities. If the value of our assets increases, then leveraging would cause the net asset value attributable to our common stock to increase more sharply than it would have had we not leveraged. Conversely, if the value of our assets decreases, leveraging would cause net asset value to decline more sharply than it otherwise would have had we not leveraged our business. Similarly, any increase in our income in excess of interest payable on the borrowed funds would cause our net investment income to increase more than it would without the leverage, while any decrease in our income would cause net investment income to decline more sharply than it would have had we not borrowed. Such a decline could negatively affect our ability to pay distributions, scheduled debt payments or other payments related to our securities. The effects of leverage would cause any decrease in net asset value for any losses to be greater than any increase in net asset value for any corresponding gains. If we incur additional leverage, you will experience increased risks of investing in our common stock.

We maintain a revolving credit facility and use other borrowed funds to make investments or fund our business operations, which exposes us to risks typically associated with leverage and increases the risk of investing in us.

We maintain a revolving credit facility, have issued debt securities and may borrow money, including through the issuance of additional debt securities or preferred stock, to leverage our capital structure, which is generally considered a speculative investment technique. As a result:

- our common stock is exposed to an increased risk of loss because a decrease in the value of our investments would have a greater negative impact on the value of our common stock than if we did not use leverage;
- if we do not appropriately match the assets and liabilities of our business, adverse changes in interest rates could reduce or eliminate the incremental income we make with the proceeds of any leverage;
- our ability to pay distributions on our common stock may be restricted if our asset coverage ratio, as provided in the 1940 Act, is not at least 150% and any amounts used to service indebtedness or preferred stock would not be available for such distributions;
- any credit facility is subject to periodic renewal by its lenders, whose continued participation cannot be guaranteed;
- our revolving credit facility with ING Capital LLC, as agent, is, and any other credit facility we may enter into would be, subject to various financial and operating covenants, including that our portfolio of investments satisfies certain eligibility and concentration limits as well as valuation methodologies;
- such securities would be governed by an indenture or other instrument containing covenants restricting our operating flexibility;
- we bear the cost of issuing and paying interest or distributions on such securities, which costs are entirely borne by our common stockholders; and

- any convertible or exchangeable securities that we issue may have rights, preferences and privileges more favorable than those of our common stock.

The following table illustrates the effect of leverage on returns from an investment in our common stock assuming various annual returns, net of expenses. The calculations in the table below are hypothetical and actual returns may be higher or lower than those appearing in the table below.

	Assumed Return on Our Portfolio (Net of Expenses) ⁽¹⁾				
	-10%	-5%	0%	5%	10%
Corresponding return to common stockholder ⁽²⁾⁽³⁾	-28.11%	-16.91%	-5.71%	5.50%	16.70%

- (1) The assumed return on our portfolio is required by regulation of the SEC to assist investors in understanding the effects of leverage and is not a prediction of, and does not represent, our projected or actual performance.
- (2) Assumes \$579.8 million in total assets, \$321.0 million in debt outstanding, of which \$205.0 million is senior securities outstanding, \$258.8 million in net assets and an average cost of funds of 4.60%, which was the weighted average interest rate of borrowing on our revolving credit facility, SBA debentures and 2023 Notes as of December 31, 2018. The interest rate on our revolving credit facility is a variable rate. Actual interest payments may be different.
- (3) In order for us to cover our annual interest payments on indebtedness, we must achieve annual returns on our December 31, 2018 total portfolio assets of at least 2.55%.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds

None.

Item 3. Defaults Upon Senior Securities

**CERTIFICATION OF CHIEF EXECUTIVE OFFICER
PURSUANT TO RULE 13a-14 OF THE SECURITIES EXCHANGE ACT OF 1934
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Theodore L. Koenig, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Monroe Capital Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

**CERTIFICATION OF CHIEF FINANCIAL OFFICER
PURSUANT TO RULE 13a-14 OF THE SECURITIES EXCHANGE ACT OF 1934
AS ADOPTED PURSUANT TO SECTION 302 OF THE SARBANES-OXLEY ACT OF 2002**

I, Aaron D. Peck, certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of Monroe Capital Corporation;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer(s) and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - (a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - (b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - (c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - (d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
5. The registrant's other certifying officer(s) and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
 - (a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - (b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
