Monroe Capital Corporation BDC Announces Strong Second Quarter Financial Results

CHICAGO, IL, August 8, 2016 -- Monroe Capital Corporation (Nasdaq: MRCC) ("Monroe") today announced its financial results for the second quarter ended June 30, 2016.

Except where the context suggests otherwise, the terms "Monroe," "we," "us," "our," and "Company" refer to Monroe Capital Corporation.

Second Quarter 2016 Financial Highlights

- Net investment income of \$5.8 million, or \$0.44 per share
- Adjusted Net Investment Income (a non-GAAP measure described below) of \$5.7 million, or \$0.43 per share
- Net increase in net assets resulting from operations of \$5.3 million, or \$0.41 per share
- Net asset value ("NAV") of \$188.7 million, or \$14.50 per share
- Paid quarterly dividend of \$0.35 per share on June 30, 2016
- Received approval from the SBA for \$75.0 million in additional SBA-guaranteed debentures

Chief Executive Officer Theodore L. Koenig commented, "We are pleased to report another quarter of strong earnings for the second quarter of 2016, with Adjusted Net Investment Income of \$0.43 per share, well in excess of our dividend of \$0.35 per share. We are also pleased to continue to provide our stockholders strong quarterly results, with significant dividend coverage and an increase in our per share NAV. Subsequent to quarter end, we completed a public offering of approximately 3.6 million shares of our stock (inclusive of the over-allotment option), generating gross proceeds of \$55.3 million. This capital raise, which was accretive to our per share NAV, combined with our recent approval for \$75.0 million in additional SBA-guaranteed debentures, will allow us to profitably grow our portfolio and continue to create long term value for our shareholders."

Monroe Capital Corporation is the business development company affiliate of the award winning private debt investment firm and lender, Monroe Capital LLC.

(1) See *Non-GAAP Financial Measure – Adjusted Net Investment Income* below for a detailed description of this non-GAAP measure and a reconciliation from net investment income to Adjusted Net Investment Income. The Company uses this non-GAAP financial measure internally in analyzing financial results and believes that this non-GAAP financial measure is useful to investors as an additional tool to evaluate ongoing results and trends for the Company.

Portfolio Review

The Company had debt and equity investments in 55 portfolio companies, with a total fair value of \$342.8 million, as of June 30, 2016 as compared to debt and equity investments in 53 portfolio companies, with a total fair value of \$343.5 million, as of March 31, 2016. The Company's portfolio consists primarily of first lien loans, representing 74.3% of the portfolio as of June 30, 2016 and 75.1% of the portfolio as of March 31, 2016. As of June 30, 2016, the weighted average contractual yield on the Company's investments was 9.8% and the effective yield was 9.8% as compared to the weighted average contractual yield of 9.9% and effective yield of 10.0% as of March 31, 2016. Portfolio yield is calculated only on the portion of the portfolio that has a contractual coupon and therefore does not account for dividends on equity investments (other than preferred equity).

Financial Review

Net investment income for the quarter ended June 30, 2016 totaled \$5.8 million, or \$0.44 per share, consistent with the \$5.8 million, or \$0.44 per share, for the quarter ended March 31, 2016. Adjusted Net Investment Income was \$5.7 million, or \$0.43 per share, for the quarter ended June 30, 2016, compared to \$6.1 million, or \$0.47 per share, for the quarter ended March 31, 2016. While dividend income from one of the Company's LLC equity investments declined during the period, this decline was partially offset by an increase in interest income and a decline in incentive fees. The Company believes that Adjusted Net Investment Income is a consistent measure of the Company's earnings – see *Non-GAAP Financial Measure – Adjusted Net Investment Income* discussion below.

Net gain (loss) on investments and secured borrowings was (\$0.5) million for the quarter ended June 30, 2016, compared to \$2.2 million for the quarter ended March 31, 2016. The net loss on investments and secured borrowings during the quarter ended June 30, 2016 was primarily the result of net unrealized mark-to-market losses on investments in the portfolio during the quarter, as compared to net mark-to-market gains on investments in the portfolio and a realized gain on a warrant position during the prior quarter.

Net increase in net assets resulting from operations was \$5.3 million, or \$0.41 per share, for the quarter ended June 30, 2016, compared to \$7.9 million, or \$0.61 per share, for the quarter ended March 31, 2016. As net investment income remained flat as compared to the prior quarter, this decrease is primarily the result of net unrealized mark-to-market losses on investments during the quarter, as compared to net mark-to-market and realized gains on the portfolio during the prior quarter. The Company's NAV increased on a per share basis to \$14.50 per share at June 30, 2016 from \$14.45 per share at March 31, 2016.

Liquidity and Capital Resources

At June 30, 2016, the Company had \$5.5 million in cash, \$8.1 million in restricted cash at Monroe Capital Corporation SBIC LP ("MRCC SBIC," the Company's wholly-owned SBIC subsidiary), \$127.2 million of total debt outstanding on its revolving credit facility and \$40.0 million in outstanding Small Business Administration ("SBA") debentures. As of June 30, 2016, the Company had \$32.8 million available for additional borrowings on its revolving credit facility and \$75.0 million in available SBA-guaranteed debentures.

SBIC Subsidiary

As of June 30, 2016, MRCC SBIC had \$20.0 million in regulatory capital and leveragable capital and cash and investments at fair value of \$8.1 million and \$55.4 million, respectively. Additionally, MRCC SBIC had \$40.0 million in SBA-guaranteed debentures outstanding.

The SBA historically limited a related group of SBIC's, referred to as a "family of funds," to a maximum of \$225.0 million in total borrowings. On December 18, 2015, this limitation was raised to \$350.0 million in total borrowings. As the Company has other affiliated SBICs already in operation, MRCC SBIC was historically limited to a maximum of \$40.0 million in borrowings. The Company began the process to take advantage of the upsize in the SBA family of funds limitation by submitting a commitment application to the SBA and on April 13, 2016 MRCC SBIC was approved by the SBA for \$75.0 million in additional SBA-guaranteed debentures. In order for MRCC SBIC to gain access to the entirety of the \$75.0 million in SBA-guaranteed debentures, the Company would be required to contribute to MRCC SBIC an additional \$37.5 million in leveragable and regulatory capital. These additional SBA-guaranteed debentures will allow MRCC to continue to grow its investment portfolio, even in a period where raising equity capital in the public markets is difficult. The SBA-guaranteed debentures are long-term, fixed rate financing with the advantage of being excluded from the Company's 200% asset coverage test under the Investment Company Act of 1940.

Non-GAAP Financial Measure – Adjusted Net Investment Income

On a supplemental basis, the Company discloses Adjusted Net Investment Income (including on a per share basis) which is a financial measure that is calculated and presented on a basis of methodology other than in accordance with generally accepted accounting principles of the United States of America (“non-GAAP”). Adjusted Net Investment Income represents net investment income, excluding the net capital gains incentive fee and excise taxes. The Company uses this non-GAAP financial measure internally in analyzing financial results and believes that this non-GAAP financial measure is useful to investors as an additional tool to evaluate ongoing results and trends for the Company. The management agreement with the Company’s advisor provides that a capital gains incentive fee is determined and paid annually with respect to realized capital gains (but not unrealized capital gains) to the extent such realized capital gains exceed realized and unrealized capital losses for such year. Management believes that Adjusted Net Investment Income is a useful indicator of operations exclusive of any net capital gains incentive fee as net investment income does not include gains associated with the capital gains incentive fee.

The following table provides a reconciliation from net investment income (the most comparable GAAP measure) to Adjusted Net Investment Income for the periods presented:

| | For the quarter ended | | | |
|---------------------------------|---------------------------------------|------------------|-----------------|------------------|
| | June 30, 2016 | | March 31, 2016 | |
| | Amount | Per Share Amount | Amount | Per Share Amount |
| | (in thousands, except per share data) | | | |
| Net investment income | \$ 5,759 | \$ 0.44 | \$ 5,787 | \$ 0.44 |
| Net capital gains incentive fee | (96) | (0.01) | 235 | 0.02 |
| Excise taxes | - | - | 87 | 0.01 |
| Adjusted Net Investment Income | <u>\$ 5,663</u> | <u>\$ 0.43</u> | <u>\$ 6,109</u> | <u>\$ 0.47</u> |

Adjusted Net Investment Income may not be comparable to similar measures presented by other companies, as it is a non-GAAP financial measure that is not based on a comprehensive set of accounting rules or principles and therefore may be defined differently by other companies. In addition, Adjusted Net Investment Income should be considered in addition to, not as a substitute for, or superior to, financial measures determined in accordance with GAAP.

Second Quarter 2016 Financial Results Conference Call
