## **Monroe Capital Corporation BDC Announces Second Quarter 2022 Results**

CHICAGO, IL, August 2, 2022 -- Monroe Capital Corporation (Nasdaq: MRCC) ("Monroe") today announced its financial results for the second quarter ended June 30, 2022.

Except where the context suggests otherwise, the terms "Monroe," "we," "us," "our," and "Company" refer to Monroe Capital Corporation.

#### **Second Quarter 2022 Financial Highlights**

- · Net Investment Income of \$5.0 million, or \$0.23 per share
- · Adjusted Net Investment Income (a non-GAAP measure described below) of \$5.4 million, or \$0.25 per share
- · Net decrease in net assets resulting from operations of \$7.4 million, or \$0.34 per share
- · Net Asset Value ("NAV") of \$232.1 million, or \$10.71 per share
- · Paid quarterly dividend of \$0.25 per share on June 30, 2022

Chief Executive Officer Theodore L. Koenig commented, "We are pleased to report that Adjusted Net Investment Income for the quarter once again covered our dividend. Our current annual cash dividend to shareholders is approximately  $10.9\%^{(1)}$ . The more negative economic backdrop during the second quarter and the corresponding aggressive actions by the Federal Reserve created increased uncertainty across all markets. This market volatility and the associated spread widening in the loan market has caused downward pressure on loan valuations for all lenders during the quarter. Despite the inflationary and rising interest rate headwinds, credit performance remains strong. Further, new deal activity remains robust at Monroe as the market volatility opened up the opportunity set for both sponsored and non-sponsored transactions. We are well positioned to benefit from increases in interest rates and we remain committed to supporting the financing needs of our clients that have resilient business models and positive long-term outlooks. As always, we continue to be focused on adhering to our underwriting principles and generating strong risk-adjusted returns to create shareholder value."

<sup>(1)</sup> Based on an annualized dividend and closing share price as of August 1, 2022.

Monroe Capital Corporation is a business development company affiliate of the award winning private credit investment firm and lender, Monroe Capital LLC.

#### **Management Commentary**

Adjusted Net Investment Income totaled \$5.4 million or \$0.25 per share for the quarter ended June 30, 2022. This is consistent with \$5.4 million or \$0.25 per share for the quarter ended March 31, 2022. See *Non-GAAP Financial Measure – Adjusted Net Investment Income* discussion below.

NAV decreased by \$0.59 per share, or 5.2%, to \$232.1 million or \$10.71 per share as of June 30, 2022, compared to \$244.9 million or \$11.30 per share as of March 31, 2022. The NAV decrease of \$0.59 per share was primarily the result of net unrealized losses on the portfolio due to overall market volatility and spread widening in the loan market.

During the quarter, MRCC's debt-to-equity leverage increased from 1.30 times debt-to-equity to 1.38 times debt-to equity. While we have seen repayments of approximately \$27.9 million, net of investment activity since the end of the second quarter, we have a strong pipeline and we continue to focus on selectively redeploying capital stemming from repayments to maintain MRCC's leverage level while continuing to actively manage our investment portfolio.

#### **Portfolio Review**

The Company had debt and equity investments in 98 portfolio companies, with a total fair value of \$536.0 million as of June 30, 2022, as compared to debt and equity investments in 97 portfolio companies, with a total fair value of \$546.0 million, as of March 31, 2022. The Company's portfolio consists primarily of first lien loans, representing 83.8% of the portfolio as of June 30, 2022, and 83.1% of the portfolio as of March 31, 2022. As of June 30, 2022, the weighted average contractual and effective yield on the Company's debt and preferred equity investments was 8.4% and 8.5%, respectively, as compared to the weighted average contractual and effective yield of 7.9% and 8.0%, respectively, as of March 31, 2022. Portfolio yield is calculated only on the portfolio that has a contractual coupon and therefore does not account for dividends on equity investments (other than preferred equity). As of June 30, 2022, 2.0% of the Company's total investments at fair value were on non-accrual as compared to 2.2% as of March 31, 2022.

#### **Financial Review**

Net Investment Income for the quarter ended June 30, 2022 totaled \$5.0 million, or \$0.23 per share, compared to \$5.4 million, or \$0.25 per share, for the quarter ended March 31, 2022. Adjusted Net Investment Income was \$5.4 million, or \$0.25 per share, for the quarter ended June 30, 2022, compared to \$5.4 million, or \$0.25 per share, for the quarter ended March 31, 2022. Investment income for the quarter ended June 30, 2022 totaled \$13.0 million, compared to \$12.5 million for the quarter ended March 31, 2022. The \$0.5 million increase in investment income was primarily driven by higher fee income, partially offset by a decline in interest income. Total expenses for the quarter ended June 30, 2022 totaled \$8.0 million, compared to \$7.1 million for the quarter ended March 31, 2022. The \$0.9 million increase in expenses during the quarter was primarily driven by higher incentive fees (net of associated fee waivers) and income taxes, including excise taxes, partially offset by lower interest and other debt financing expenses as a result of the repayment of our Small Business Administration ("SBA") debentures during the quarter ended March 31, 2022.

Net gain (loss) was (\$12.4) million for the quarter ended June 30, 2022, compared to (\$4.6) million for the quarter ended March 31, 2022. Net realized and unrealized gains (losses) on investments were (\$13.4) million for the quarter. The net unrealized losses during the quarter were driven primarily by the overall market volatility and spread widening in the loan market. Other net gains (losses) totaled \$1.0 million for the quarter ended June 30, 2022, comprised primarily of net unrealized gains on foreign currency forward contracts.

Net increase (decrease) in net assets resulting from operations was (\$7.4) million, or (\$0.34) per share, for the quarter ended June 30, 2022, compared to \$0.8 million, or \$0.04 per share, for the quarter ended March 31, 2022.

#### **Liquidity and Capital Resources**

At June 30, 2022, the Company had \$6.0 million in cash, \$190.0 million of debt outstanding on its revolving credit facility and \$130.0 million of debt outstanding on its 2026 Notes. As of June 30, 2022, the Company had approximately \$65.0 million available for additional borrowings on its revolving credit facility, subject to borrowing base availability.

#### **MRCC Senior Loan Fund**

MRCC Senior Loan Fund I, LLC ("SLF") is a joint venture with Life Insurance Company of the Southwest ("LSW"), an affiliate of National Life Insurance Company. SLF invests primarily in senior secured loans to middle market companies in the United States. The Company and LSW have each committed \$50.0 million of capital to the joint venture. As of June 30, 2022, the Company had made net capital contributions of \$42.7 million in SLF with a fair value of \$37.6 million, as compared to net capital contributions of \$42.2 million in SLF with a fair value of \$40.2 million at March 31, 2022. During the quarter ended June 30, 2022, the Company received an income distribution from SLF of \$0.9 million, consistent with the \$0.9 million received during the quarter ended March 31, 2022. The SLF's underlying investments are loans to middle-market borrowers that are generally larger than the rest of MRCC's portfolio which is focused on lower middle-market companies. The SLF's portfolio decreased in value by 3.1% during the quarter, from 97.9% of amortized cost as of March 31, 2022 to 94.8% of amortized cost as of June 30, 2022.

As of June 30, 2022, SLF had total assets of \$203.6 million (including investments at fair value of \$195.2 million), total liabilities of \$128.5 million (including borrowings under the \$175.0 million secured revolving credit facility with Capital One, N.A. (the "SLF Credit Facility") of \$129.6 million) and total members' capital of \$75.1 million. As of March 31, 2022, SLF had total assets of \$202.1 million (including investments at fair value of \$195.3 million), total liabilities of \$121.7 million (including borrowings under the SLF Credit Facility of \$120.1 million) and total members' capital of \$80.4 million.

#### Non-GAAP Financial Measure - Adjusted Net Investment Income

On a supplemental basis, the Company discloses Adjusted Net Investment Income (including on a per share basis) which is a financial measure that is calculated and presented on a basis of methodology other than in accordance with generally accepted accounting principles of the United States of America ("non-GAAP"). Adjusted Net Investment Income represents net investment income, excluding the net capital gains incentive fee and income taxes. The Company uses this non-GAAP financial measure internally in analyzing financial results and believes that this non-GAAP financial measure is useful to investors as an additional tool to evaluate ongoing results and trends for the Company. The management agreement with the Company's advisor provides that a capital gains incentive fee is determined and paid annually with respect to realized capital gains (but not unrealized capital gains) to the extent such realized capital gains exceed realized and unrealized capital losses for such year. Management believes that Adjusted Net Investment Income is a useful indicator of operations exclusive of any net capital gains incentive fee as net investment income does not include gains associated with the capital gains incentive fee.

The following table provides a reconciliation from net investment income (the most comparable GAAP measure) to Adjusted Net Investment Income for the periods presented:

	For the quarter ended							
	June 30, 2022				March 31, 2022			
			Per	Share			Per	Share
	Aı	mount	Ar	nount	A	mount	Aı	mount

Income taxes, including excise taxes		402		0.02		19		_
Adjusted Net Investment Income	\$	5,416	\$	0.25	\$	5,417	\$	0.25

Adjusted Net Investment Income may not be comparable to similar measures presented by other companies, as it is a non-GAAP financial measure that is not based on a comprehensive set of accounting rules or principles and therefore may be defined differently by other companies. In addition, Adjusted Net Investment Income should be considered in addition to, not as a substitute for, or superior to, financial measures determined in accordance with GAAP.
